THE PROFESSIONALS REPRESENTING OUR BRAND. MEET THE H-TEAM AMBASSADORS

Andy Campbell – Forestry (left)

Andy has spent most of his working life in the forest. When not logging or running chainsaw training courses he may be found training for and competing in precision chainsaw competitions both here in the UK and abroad. He has represented the UK in all 5 of the European Logging Championships since they started in 2009. Andy is chairman of the UK Loggers, who send a team to represent the UK in the World Logging Championships where he has attended as team leader for numerous years. The UK Loggers also run our annual national precision chainsaw championship. Andy is also a Technical Standards Verifier for Lantra Awards and an assessor for City and Guilds certificates of competence.

Josephine Hedger – Arboriculture (centre)

Multiple World and European Tree Climbing Champion and former foot locking world record holder. As well as regularly competing globally, Josephine runs a successful arborist business with her husband, employing 10 people and also runs an Arboriculture training school. Josephine is extremely passionate about climbing and the Arboriculture industry.

Tim Bendle – Forestry & Arboriculture (right)

Tim has 34 years experience working as a professional contractor in the Forestry & Arboriculture Industry. Tim's extensive experience stretches to 25 years as a City & Guilds NPTC Assessor and Lantra Instructor in Forestry and Arboriculture. Tim is also one of the Principal Technical Standards Verifiers for City & Guilds NPTC and a long standing Lantra Technical Standards Verifier for Forestry and Arboriculture. Tim performs independent training and also is contracted to the Royal Agricultural University, Cirencester covering all chainsaw, climbing and forestry/arboriculture machinery activities. Tim has enjoyed a close working relationship with Husqvarna for the last 25 years and feels passionate about the brand and its continued support to the Forestry & Arboriculture Industry.

HusqvarnaUK

Husqvarna tools for forests, parks and gardens are born from a unique relationship between man, machine and nature – between our company and the people who use our equipment to shape nature every day. Dedicated people, who need the very best tools and machines to achieve the very best results.

When the going gets tough, Husqvarna tools are tougher. When work gets hard, they're lighter, more comfortable to handle and easier to use. Yet they always affect your surroundings as little as possible when it comes to noise and pollution. Our job is to make you better and make sure you get the job done – smarter, easier and more efficient and safe than ever.

WE ARE IN TUNE WITH NATURE

At Husqvarna we take great pride in driving our business with one clear goal: to always stay in tune with nature. For us, that means that in everything we do we strive to create beneficial links between us, our users and nature. Our products are developed to create intelligent relationships between people and nature, between our users and their gardens, through the use of the most intuitive technology and cutting-edge solutions available. We are in tune with nature, to enable a smart and carefree user experience. Today and tomorrow.

A SIMPLER LIFE WITH INTELLIGENT TECHNOLOGY

Intelligent technology helps us provide solutions that simplify our customers' lives. Be it by integrating voice-commands through Alexa or Google Home, remote control app solutions, or energy-efficient brushless motors, we always look to new ways of applying our innovations to simplify and support a more efficient experience. Technology is the bridge that enables us all to be even more in tune with nature.

CONTROL YOUR ROBOTIC MOWER FROM THE PALM OF YOUR HAND

The Husqvarna Automower® Connect app allows you to take full control of your Husqvarna robotic lawn mower. The app provides two modes of connectivity depending on model: Automower® Connect for long-range connectivity using cellular communication, or Automower® Connect@Home for short-range, using Bluetooth. See the status, start or stop, configure the settings or track the mower's GPS position – all from your phone.

Our open API solution enables endless connectivity possibilities of personalisation and add-on features through IFTTT (If This Then That).

AVAILABLE ON GOOGLE PLAY
AND ON THE APP STORE

MINIMISING THE IMPACT

Being in tune with nature equals a certain amount of demands – on us as a company as well as on our conscious customers. Respect for our environment and a sustainable mindset are a given. When investing in a Husqvarna product you can always rest assured every conceivable measure has been taken to minimise its impact and its carbon footprint.

TOWARDS A CAREFREE EXISTENCE

A carefree experience starts with proud users who want to live full lives, enhanced by smart solutions. People who want their product to do its job with minimum supervision, who want to be able to relax, safe in the knowledge that their products always deliver at peak performance, with a minimum of labour investment. People who rely on technology to aid them in achieving a perfect result as well as a better tomorrow, every time.

ELEVATE YOUR EXPERIENCE WITH THE HUSQVARNA CONNECT APP

The Husqvarna Connect app is a free of charge, digital toolshed for all your equipment, making your garden work easier and more rewarding. If you own any of our products equipped with Bluetooth, you get access to additional features such as runtime statistics, charge status, maintenance notifications, local dealer details and more.

AVAILABLE ON GOOGLE PLAY
AND ON THE APP STORE

NO MATTER YOUR NEEDS, WE HAVE THE SOLUTION

The Husqvarna product range covers everything from small and easy-to-use machines for common household tasks to heavy-duty, professional equipment with outstanding power-to-weight ratio designed for intensive full time use. So, no matter your needs and requirements, Husqvarna can provide you with the best solution.

OCCASIONAL USE

HUSQVARNA ASPIRE™

- BATTERY

The Husqvarna® Aspire™ range are a selection of compact tools for suburban gardens. Purposefully developed with compact performance and smart storage in mind. This range offer highly efficient, intuitive and attractively designed products for all essential garden tasks. Compatible with a bespoke Husqvarna Aspire™ Storage-solution for minimal footprint while not in use. And as part of the POWER FOR ALL Alliance (P4A) 18v battery system, you get great flexibility and access to a wide variety of power tools for suburban homeowners.

Ideal for applications including:

- Domestic use
- Small areas
- Light garden maintenance and pruning

OCCASIONAL USE

100 SERIES

- BATTERY
- PETROL

The 100 series are designed for occasional use in smaller areas. The range offers durability, ease of use and minimal need for maintenance that will turn the machines into an essential part of the care of your lawns, hedges and trees. Ideally suited for use in residential gardens or for garden enthusiasts. For ultimate convenience select the 100 Series Battery range with low noise resulting in minimal disturbance, plus it's as easy as pushing a button and off you go.

Ideal for applications including:

- Domestic use
- Small areas
- Light garden maintenance and pruning

DEMANDING OCCASIONAL USE

200 SERIES

- BATTERY
- PETROL

The 200 series are designed for more demanding occasional use in small to medium areas. The range is ideally suited for demanding use in residential gardens or by garden enthusiasts with more challenging areas to maintain. Offering higher capacity and increased features over the 100 series the machines are able to tackle a wider range of conditions efficiently and effortlessly. The products are focused on ease of use for more occasional use.

Ideal for applications including:

- Demanding domestic use
- Small to medium areas
- Garden maintenance

FREQUENT USE

300 SERIES

- BATTERY
- PETROL

The 300 series are designed for frequent use in medium to large areas. The range offers good levels of performance for more demanding situations and smart features to make the task at hand easier and more enjoyable. Ideally suited to landowners, farmers and demanding domestic users who require durable machines delivering good levels of performance and operator comfort for moderate and frequent use.

Ideal for applications including:

- Frequent domestic use
- Medium to large areas
- Landowner use
- Farm and estate maintenance

PART-TIME USE

400 SERIES

- BATTERY
- PETROL

The 400 series are designed for part-time use in larger areas. The range offers higher levels of performance and durability with smart features to improve user comfort and operating efficiency. The products are ideally suited to landowner and landscaper use. They are also suited for professionals who require good performance for more moderate and less frequent use.

Ideal for applications including:

- Landowner use
- Landscapers
- Farm and country estates
- Larger areas
- Sports facilities
- Part-time grounds maintenance

FULL-TIME USE

500 SERIES

- BATTERY
- PETROL
- DIESEL
- HYBRID

The 500 series consist of a wide range of full-time use products developed especially for the demands of intensive professional use in a range of applications. The 500 series offer maximum performance and durability levels, this in combination with low emission technology and user focused ergonomics provides increased productivity and efficiency, as well as a better more sustainable work environment.

Ideal for applications including:

- Green space maintenance
- Sports and recreational
- Landscaping
- Arboriculture
- Forestry
- Noise sensitive areas (Battery)

NEW HUSQVARNA ASPIRE™

Enjoy smarter garden work with compact, efficient tools

Husqvarna Aspire™ is a new range of efficient garden tools with compact, flexible design and smart details to make your garden work enjoyable. The 18 V **POWER FOR ALL** battery system provides truly cordless convenience and great performance. Ideal for you who want to keep your own little garden the greatest place to be – with the least possible work effort.

Aspire™ Blower

High blow force adjustable in 3 steps for optimal performance

**Aspire™ Hedge trimmer**

With leaf catcher taking care of residual leaves

SMART DESIGN FOR SMOOTH HANDLING

Spend more time enjoying your garden

The Husqvarna Aspire™ products are all high quality and carefully designed, with a sleek appearance and intuitive use in mind, to make your garden work nothing but effortless and enjoyable. The tools are easy to get started with and need little or no maintenance. Their low weight and high-performance motors help you get the work done efficiently and in no time.

POWER FOR ALL BATTERY SYSTEM

Experience flexible power

The **POWER FOR ALL** ALLIANCE is one of the largest cross-brand 18 Volt battery systems worldwide, stretching across a multitude of home and garden applications. The **POWER FOR ALL** ALLIANCE gathers a multiple of leading brands such as Husqvarna, Bosch, Gardena, Wagner and Rapid. You'll only need one charger and one battery for all your garden products if it suits you.

**Aspire™ Pruner**

2-in-1 tool, efficient hand pruner with extendable telescopic shaft for a ladder-free pruning experience

Aspire™ Lawn mower

Easy to lift and foldable, taking up minimum storage space. Easy to manoeuvre in all corners of your lawn

Aspire™ Robotic mower

Compact Automower® packed with smart features, for lawns up to 400m².

Aspire™ Trimmer

Easily adjustable for super-precise trimming

COMPACT FORMAT FOR EASY STORAGE**You can store them all on the wall**

With Husqvarna Aspire™ you'll have your garden machines stored in perfect order. The products are designed to take up as little space as possible when not in use, being foldable, adjustable or with removable parts. Each product has a bespoke metal hook, ready to mount directly on the wall for easy and stable storage. The optional storage rail provides an even neater and more flexible solution.

**EXPLORE MORE**

Find out more about Husqvarna Aspire™ at husqvarna.com/uk/

HUSQVARNA ASPIRE™

**Smart and efficient garden tools for compact living**

The Aspire™ products are designed for people who lack storage space and expect top-quality products without compromising on design. They are slimmed down and made to be foldable into a much smaller size to save space. A smart storage solution allows for easy storage in compact spaces, as all products come with a tailor-made hook and an optional storage rail, shelf and hook kit.

AUTOMOWER® ASPIRE™ R4**NEW**

This compact robotic mower offers a lawn cut to perfection 24/7. Optimised for lawns up to 400m² with systematic passage mowing for precisely cut narrow passages, slope handling of 25% and carefree operation thanks to reliable mowing, frost guard and weather timer.

- Lift & tilt sensors
- Systematic passage mowing
- Weather timer
- Frost sensor
- Compact Aspire™ Storage
- Anti-theft alarm
- Automower® Connect
- FOTA - Firmware Over The Air
- Hose washable

HUSQVARNA GROUP

DO ANY JOB WITHOUT NOISE OR EMISSIONS

The Husqvarna Battery Series offers all the power, performance and intuitive design you expect from Husqvarna. Our range of highly-efficient handheld products, driven by a powerful Li-ion battery pack, ensure that you get significantly less noise and vibrations, minimal maintenance – and no direct emissions at all. Also, you can switch batteries between machines, because Husqvarna batteries are interchangeable between all Husqvarna battery products.

WHAT YOU GET AND HOW WE DO IT

DON'T DISTURB

No petrol, no fumes, no exhausts and low noise – the silent motor provides a comfortable working environment and low disturbance for the surrounding areas.

MAXIMUM RUNTIME

Husqvarna battery handheld products feature savE™, a battery economy mode which you can choose when you want to maximise your operational time. Some models also feature 3 performance settings allowing you to match power performance to the job in hand.

PROTECTED CORE

Our batteries are all developed in-house and designed to withstand tough and frequent use. All sensitive components and cells are encapsulated and well protected against rain and dirt.

HIGH PERFORMANCE

Our brushless electric E-TORQ motors, developed in-house, deliver high, consistent torque from low revs – enough for the most demanding tasks. The E-TORQ motors are encapsulated and designed to be maintenance-free.

MADE TO FIT

Husqvarna's battery products and motors are developed directly together with the batteries. This means purpose-adapted application design that makes the machines both lighter and slimmer.

husqvarna.com/battery-products

WHY CHOOSE BATTERY?

THE BENEFITS OF THE HUSQVARNA BATTERY SERIES

MAXIMUM FLEXIBILITY

Our battery system can be used on all Battery Series products making them extremely flexible. The batteries have features which prolong lifespan and allow them to be run and recharged continuously. Always ready to use.

HIGH PERFORMANCE

Powerful compact and long-life Husqvarna developed motors with low weight offer instant and equal torque no matter what the operating speed. This results in performance which exceeds petrol equivalent machines. Our E-TORQ motors also offer 90% efficiency for maximum runtime.

SAVES YOU MONEY

Costing as little as 4p to recharge a battery, the machines have a much lower cost to operate compared to petrol equivalents. The benefits are even higher when used professionally or full time.

EASY TO USE

Low weight and excellent balance make the products extremely comfortable to handle. The machines are switched ON and OFF at the push of a button via the unique keypad making them effortless to start and also protected against accidental activation.

500 SERIES

PROFESSIONAL DURABILITY

Using our vast experience of what is required to meet the needs of professional use, all of our 500 series battery products are put through the same duration lab test procedures as our 500 Series 2-stroke petrol products.

HEALTHIER WORK

With no direct emissions our battery products are clean and pleasant to use. This is especially beneficial when working in confined spaces and allows safe use in covered and indoor areas.

LOW NOISE

Products are up to 18db(A) lower noise than petrol equivalents. A reduction of 3db(A) is seen as half the noise level. This makes for a comfortable work environment and low disturbance for others, enabling the possibility to work in noise sensitive areas.

ALL WEATHER USE

Our 500 Series products are IPX4 rated and can be used in the most demanding weather conditions. The sealed motors, electronics and batteries protect against ingress of dirt and moisture allowing you to keep working.

COMFORTABLE USE

With less moving parts our products offer lower levels of vibration when compared to equivalent petrol machines. This allows the machines to be used for longer periods maximising work output whilst increasing comfort.

FLEET SERVICES

Husqvarna Fleet Services is fully compatible with the Husqvarna Professional Battery Series. Fleet Services allows landscapers and contractors to take full control of their operations. Giving insights in to their daily business allowing a more profitable & efficient operation.

“Husqvarna's professional range of battery products have brought a new and refreshing aspect to a 34 year career in tree care for me. Apart from the physical and environmental benefits, Husqvarna's battery powered products have given me a faster, more efficient and far more enjoyable way of working.”

Tim Bendle, H-TEAM Ambassador

MAXIMUM FLEXIBILITY AND OPTIMUM PERFORMANCE

WHY WE USE 36V LI-ION

If we compare a 36V Li-ion (5.2Ah) battery versus a 72V Li-ion (2.6Ah) battery:

TO IMPROVE BATTERY PERFORMANCE IT REQUIRES:

Number of cells a battery can be increased by	10 (BLi100)	20 (BLi200)	30 (BLi300)	40
36V BATTERY	✓	✓	✓	✓
72V BATTERY	✗	✓	✗	✓

=

OFFERS MAXIMUM FLEXIBILITY

FOR USE WITH HANDHELD MACHINES

- ✓ RANGE OF APPLICATIONS
- ✓ HIGH PERFORMANCE
- ✓ COMPACT SIZE
- ✓ LOW WEIGHT

PRODUCT USE GUIDE

WORKING TIME ON ONE CHARGE

The working time available with a fully charged battery depends on three variables: the capacity of the battery, which machine the battery is used with and the type of work you are doing. The chart shows an estimate of the operating time you can expect from your Husqvarna battery equipment in different work situations.

APPLICATION		PRODUCT NAME	BATTERY

For the full range of battery accessories please see pages 42 – 45

OCCASIONAL USE

The 100 Series combi pole system is perfect for trimming and pruning high trees and hedges where long reach is required. The telescopic pole allows you to adjust the length whilst the split shaft makes transport and storage easy.

The hedge trimmer and pole saw attachments are interchangeable meaning you only need one machine for two tasks.

Ideal for applications including:

- Domestic use
- Garden maintenance and pruning
- Tall trees and hedges
- Tree thinning

120iTK4-H

UPDATED

Li-ion 36V

Telescopic pole hedge trimmer, equipped with a telescopic tube with up to 4m reach and split shaft for easy transportation. Adjustable 7 angled cutting head for convenient cutting positions. Part of the 120iTK4 Combi Series.

- 2.800 cuts/min

DID YOU KNOW?

When registered, Husqvarna products are supplied with a 2 year warranty. 2 Year warranty applies to domestic use only.

Machines must be registered by an Authorised Husqvarna dealer. Find out more on page 289

PART-TIME USE

Machines designed for demanding domestic and landowner use. Choose the 325iL for lighter applications and for use in noise sensitive areas, ideal for demanding domestic use. For more heavy duty medium density applications or when used for longer periods select the 325iR which is supplied with ergonomic harness and grass blade. Products are supplied with a highly efficient line head.

Ideal for applications including:

- **Property maintenance**
- **Overgrown areas**
- **Mowing larger areas (325iR)**
- **Noise sensitive areas (battery)**

215iL

UPDATED

Powerful battery trimmer, ideal for quick and easy trimming of lawn edges and tall grass in larger gardens.

FULL-TIME USE

High performance battery handheld blowers designed for full-time professional use. With unique fan design and brushless motors, the products produce petrol equivalent performance and powerful airflow. The blowers are ideal for use in noise sensitive or enclosed spaces.

Ideal for applications including:

- **Landscape maintenance**
- **Parks and public spaces**
- **Inner city cleaning**
- **Noise sensitive areas**
- **Indoor and enclosed spaces**

525iB II

Li-ion 36V

A powerful and low weight handheld battery blower designed for professional use. Weatherproof (IPX4) and low noise, ideal for use in noise sensitive areas.

- Brushless motor
- Weatherproof (IPX4)
- Cruise control & Boost

PART-TIME / FULL-TIME USE

Collection and mulch battery lawn mowers designed for full-time professional use on medium and larger areas in the most demanding conditions. Featuring commercial grade components and a range of commercial batteries that deliver outstanding performance, durability and reliability no matter what the application. The machines are simple to use and very easy to maintain.

Ideal for applications including:

- Municipalities
- Landscape and grounds maintenance
- Parks and public spaces
- Noise sensitive areas
- Sports turf

LC 551iV

High performance fully professional self-propelled battery lawn mower designed for full-time use. High performance cast aluminium deck giving excellent collection performance. Digital variable speed control, user interface and Fleet Services™ compatible.

- Collect / rear eject
- Adjustable, folding handles
- Integrated x2 or backpack battery
- 65 litre collector
- Cast aluminium deck / wheels
- Central height adjustment
- Vibration level 0.3m/s²
- Weather proof (IPX4)

LB 442i

Compact battery mulch mower designed for semi-professional use, ideal in complex smaller areas. Features user interface with PowerBoost and saveE™ modes. Fleet Services™ compatible.

- BioClip® (mulch)
- Adjustable handle
- 2 integrated battery slots
- Cast aluminium deck
- Central height adjustment
- Vibration level 0.3m/s²

COMFORTABLE BATTERY SYSTEM BELT

Husqvarna Flexi battery belt allows you to carry your spare Husqvarna BLi batteries and accessories on your hips for added comfort during long, efficient workdays. By connecting your product to a battery in the belt, you can also reduce the carrying weight. Durable and comfortable design for tough work.

Robust design for carrying a number of batteries and accessories

Water-resistant material

Possible to add braces, available as option.

5 fixing points for batteries and application specific tools

Tool-less system for moving batteries and accessories

Universal carrying system for accessories

BATTERY BELT FLEXI - CONNECTOR KIT

Enables backpack battery only products to be powered using a BLi integrated battery whilst allowing additional batteries and accessories to be carried.

- 5 fixing points
- 1 BLi carrier included
- Accessory bag included
- Carry up to 3 BLi batteries
- 1 BLi carrier with connector included
- Connector for 536LiBX / 540iBX

Model	Order PNC	RRP ex VAT	RRP inc VAT
Flexi connector kit	590 77 67-03		

BATTERY BELT FLEXI - ADAPTER KIT

Enables Husqvarna BLi integrated batteries to be connected to the product from the belt instead of in the product, reducing overall product weight.

- 5 fixing points
- 1 BLi carrier included
- Accessory bag included
- Carry up to 3 BLi batteries
- 1 BLi carrier with adapter included

Model	Order PNC	RRP ex VAT	RRP inc VAT
Flexi adapter kit	590 77 67-02		

BACKPACK ADAPTOR

! A MINIMUM OF MAINTENANCE FOR MAXIMUM PERFORMANCE

Husqvarna battery-powered products need virtually no mechanical maintenance, however, sharp cutting equipment is always recommended and the electronics and software should be checked regularly to ensure problem-free operation. Let your battery product be serviced by qualified Husqvarna technicians using only Genuine Husqvarna or recommended spare parts. This will support the product's performance and lifetime. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

PROFESSIONAL PERFORMANCE

Our product development never stops, and neither does our collaboration with the professional forestry workers who work with our machines. This is how we create chainsaws that help you work longer, producing less vibrations for less fatigue, and equipped with features that deliver high levels of safety. Every model gives you the power, performance and design excellence you expect from Husqvarna.

WHAT YOU GET AND HOW WE DO IT

EFFICIENCY AT ALL TIMES

User-centric design not only spares your body, it also enables you to stay alert and productive. This is why our saws are packed with solutions that make your work convenient – and efficient.

RELIABLE CONSTRUCTION

For us, efficient chainsaw work is not synonymous with just power. A durable construction along with good safety is equally important when we design our saws, to keep you and the machine in good condition.

OPTIMAL PERFORMANCE

For fuel powered chainsaws, AutoTune™ automatically adjusts the engine for optimal operation based on temperature, fuel type, altitude, etc. The battery chainsaws all feature efficient motors with an impressive power-to-weight ratio.

RAW POWER

The patented X-Torq® engine technology in our petrol-powered chainsaws uses pure air instead of an air-fuel mixture to scavenge the exhaust fumes. This results in improved fuel efficiency and lower exhaust emissions compared to conventional 2-stroke engines.

LESS FILTER CLEANING

Air injection™ – is a centrifugal air cleaning system for reduced wear and longer operating time for our petrol-powered chainsaws. You will be able to work longer shifts without cleaning the air filter.

husqvarna.com/chainsaws

* Compared with equivalent models without this feature.

GIVING YOU THE POWER FOR BETTER PERFORMANCE

High performing battery chainsaws designed for professional users who want a lightweight and balanced chainsaw with low running costs

Ergonomically designed handles for safe, comfortable grip. G-model equipped with heated handles.

Air Injection™ technology and new version of AutoTune™ for optimized and reliable runtime.

New professional grade filter design with improved and more robust seal between filter and filter holder capable of handling extremely dusty and dirty conditions.

Extremely well-balanced saw body with low gyroscopic forces for the very best manoeuvrability and handling.

Improved cutting capacity (an increase of up to 15% compared to the predecessor)

New and improved engine design, better cooling capacity and longer lifetime.

Visible fuel level and secure fuel cap with threads for gradual pressure relief to prevent fuel spill.

CARE

Find out more on page 289

IMPROVE YOUR PERFORMANCE AND STAY COMFORTABLE AND SAFE

Husqvarna's X-Cut™ chains and X-Force™ bars are specially developed and are the perfect match for Husqvarna chainsaws. By choosing X-Cut™ and X-Force™, you'll be sure to get the very best performance from your chainsaw.

Read more on page 80

In order for you to stay safe while working, we offer an extensive range of protective clothing with the latest innovations in design and material. All our clothing will provide you with the level of protection and comfort you need to get the job done safely.

OCCASIONAL USE 100 SERIES

FOR A PRUNING AND CUTTING FIREWOOD

Chainsaws that deliver good performance and are designed with ease of use in mind, intended for occasional use.

PART-TIME USE 400 SERIES

FOR FELLING, ESTATE MAINTENANCE AND FIREWOOD

All-round petrol and battery chainsaws that are easy to start, use and maintain. Designed for more frequent use in more demanding conditions.

FULL-TIME USE 500 SERIES

FORESTRY AND ARBORICULTURE

Our most technically advanced range of chainsaws designed for full-time intensive use in the most demanding conditions. The XP® range are developed solely to maximise your performance offering excellent power to weight ratio, class leading ergonomics and innovative solutions which optimise performance without compromise.

ARBORICULTURE T 500 SERIES

FOR TRAINED ARBORISTS

Our top-handle saws are all slim, lightweight, convenient and powerful machines. Features such as Low Vib and Air Injection™ enable you to work nonstop at consistently high performance levels, even when you are tackling challenging work in really difficult conditions.

LEARN ABOUT SAFE AND EFFICIENT TREE FELLING

Welcome to Husqvarna Chainsaw Academy – our online source about how to work safely, conveniently and efficiently at all times. You'll find everything from guides about choosing the right chainsaw, planning the felling and making the directional notch to limbing and cross-cutting. Includes tips on what to wear, and useful tools and accessories. Go to chainsawacademy.husqvarna.com

OCCASIONAL USE

Chainsaws that deliver good performance and are designed with ease of use in mind, intended for occasional use.

Ideal for lighter tasks such as:

- Cutting firewood
- Felling smaller trees
- General property maintenance
- Pruning
- Carpentry work

120 II

Robust, easy to use saw for domestic use with Low Vib® system. Easy maintenance and less emissions thanks to X-Torq® technology.

- X-Torq®
- Low Vib®
- Air Injection™
- Combined choke / stop control

225i

NEW

Li-Ion 36V

Husqvarna 225i is a battery chainsaw, delivering high cutting capacity with less noise compared to a petrol engine, no fumes, or direct emissions.

- User Friendly Digital User Interface
- Brushless Motor
- Hand Guard
- Lightweight Design
- Tool Less Chain Tensioning
- Inertia Chain Brake

PART-TIME USE

All-round petrol and battery chainsaws that are easy to start, use and maintain. Designed for more frequent use in more demanding conditions. Standard features include; easy starting, flip up filler caps, quick release engine cover and a combined start / stop switch. 340i battery chainsaw offers 40cm³ petrol equivalent performance whilst being easy to use and low noise.

Ideal for heavier duty tasks such as:

- **Farm and estate maintenance**
- **Heavy duty firewood cutting**
- **Felling larger trees**
- **Pruning**

340i

Li-ion 36V

Lightweight and efficient all-round battery saw ideal for cutting smaller diameter timber, firewood and farm and estate maintenance.

- LED keypad with savE™
- Low noise
- 40cm³ petrol performance
- Maximum performance with BLi30
- Slim body
- Tool-less tensioner

FULL-TIME USE

Specialist arborist chainsaws designed for professional use only. The XP® range are developed solely to maximise your performance offering excellent power to weight ratio, class leading ergonomics and innovative solutions which optimise performance without compromise.

Ideal for applications including:

- **Arboriculture**
- **Utilities maintenance**

T525

Powerful, low weight and compact petrol arborist chainsaw ideal for lighter arboriculture tasks including pruning.

- X-Torq®
- Low Vib®
- Flip-up filler cap
- Air Injection™
- Secondary eyelet
- 1/4" carving bar

● = Available (●) = Accessory — = Not available *Equivalent sound pressure level, according to ISO 22868, is calculated as the time-weighted energy total for different sound pressure levels under various working conditions. Typical statistical dispersion for equivalent sound pressure level is a standard deviation of 1 dB (A). **Noise emissions in the environment measured as sound power (LWA) in conformity with EC directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1–3 dB(A). ***Equivalent vibration level, according to ISO 22867, is calculated as the time-weighted energy total for vibration levels under various working conditions. Reported data for equivalent vibration level has a typical statistical dispersion (standard deviation) of 1 m/s².

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

! ALWAYS USE GENUINE HUSQVARNA LUBRICANTS AND SPARE PARTS FOR YOUR CHAINSAW

These high quality spare parts and lubricants are developed to facilitate the care and maintenance of your Husqvarna equipment and enable trouble-free operation and storage. Husqvarna recommend regular service done by qualified technicians using only Genuine Husqvarna original or recommended spare parts. This will support the product's performance and lifetime. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

Reported data for equivalent vibration level has a typical measurement of dispersion (standard deviation) of 1 m/s².

GIVE YOUR CHAINSAW EXTRA PERFORMANCE

Husqvarna bars and chains are built to the same high standard as our saws. By combining high quality materials with product development based on the demands of forestry professionals, we can specify the bar and chain combinations that deliver maximum efficiency and cutting performance with your Husqvarna chainsaw. Our **X-CUT™** chains and **X-FORCE™** bars are developed with our saws, giving you the optimal total performance you need to get the most out of your chainsaw.

WHAT YOU GET AND HOW WE DO IT

HUSQVARNA FOR YOUR HUSQVARNA

Husqvarna manufactured bars and chains have been developed to work optimally with our chainsaws, increasing your output and cutting efficiency.

EASY MAINTENANCE

Our bars and chains offer you a product with easier maintenance and a design that gives longer product lifetime with minimal downtime.

TOUGHER AND MORE DURABLE

Improved durability across our new bars and chains give an extended product lifetime and minimal down time which reduces overall cost of ownership and increases productivity.

10% MORE EFFICIENT

After rigorous testing, our **X-CUT™ SP33G** chain has been found to give 10% more cutting efficiency* increasing your output and productivity.

MADE IN SWEDEN

Our **X-CUT™** chains have been researched, designed and manufactured in our state-of-the-art factory in Huskvarna, Sweden** to give optimal output with our chainsaws.

husqvarna.com/parts-for-chainsaws

* Compared to our H30 chain

**SP21G not manufactured in Sweden

MINIMUM DOWNTIME, MAXIMUM RESULTS

Our **X-CUT™** chains are the first ever saw chain to be developed, designed and manufactured by Husqvarna, in Sweden where our chainsaws are developed and tested. Husqvarna **X-CUT™** is designed to maximise your output, allowing you to work harder for longer without interruptions.

MORE RUN TIME AND LESS MAINTENANCE

Cutters, materials and manufacturing processes are refined to the extreme, giving the **X-CUT™** chain outstanding sharpness out of the box, and even more importantly — sharpness that lasts considerably longer before filing is needed.

GOLDEN TIE STRAP

Thanks to the intuitive golden tie strap function, you easily locate the starting point, simplifying the filing of the chain.

BETTER RESULTS, EASIER WORK

X-CUT™ is made for making faster cuts, and it's ready to be used straight out of the box. This improves your efficiency — and your results. The smooth cutting reduces the feed force needed, making the work easier on your body.

LESS ADJUSTMENTS AND LESS RISK OF DAMAGE

The **X-CUT™** chain is pre-stretched at the factory so you can work longer before re-tensioning is needed. No unnecessary chain tension required. The risk of damaging the cutting system with a slack chain is also decreased.

LESS COST AND LESS SERVICE

A carefully balanced combination of construction, materials and processes mean excellent, dynamic durability. Wear on the cutting system is reduced — and so is the need for service.

X-CUT™ CHAIN

HUSQVARNA X-CUT™ SP33G

Semi-chisel pixel .325" 1.3mm chain developed and manufactured by Husqvarna. Low kick guard, narrow kerf, low stretch and bumper drive link. Developed for demanding professional use on mid-size chainsaws, up to 55cm³. Original equipment on most Husqvarna 400 series chainsaws.

HUSQVARNA X-CUT™ S93G

The semi chisel 3/8" mini 1.3mm S93G chain is developed to fit smaller chainsaws like the 100 Series or arborist top-handle saws. Optimised geometry and grinding provides high cutting speed. High cutting efficiency balanced against the available power from the chainsaw will enable a smooth and precise cut.

HUSQVARNA X-CUT™ SP21G

SP21G is a semi chisel .325" mini 1.1mm chain especially developed to increase the cutting speed and efficiency for full-time professional use battery chainsaws. The chain is energy efficient and the optimised geometry delivers a consistently smooth cut, excellent bore cut as well as improved handling and manoeuvrability.

HUSQVARNA X-CUT™ C85

An advanced, full chisel, high performance 3/8" 1.5mm chain for full-time professional forestry saws. With its outstanding durability and cutting efficiency, a sharpness that lasts and low stretch, it gives you better results, less need for maintenance and lower costs.

GET THE PERFORMANCE PACKAGE FOR YOUR HUSQVARNA CHAINSAW

All of our **X-CUT™** chains are tested and developed with our chainsaws, ensuring they give you maximum performance and the best cutting efficiency when used with our saws.

Read more about our bars and chains on our website:

www.husqvarna.com/uk/parts-for-chainsaws/

HUSQVARNA X-CUT™ S35G NEW

Semi chisel .325" 1.5mm chain, especially suited for demanding everyday professional use. A really robust chain with a sharpness that lasts, an outstanding durability, low stretch and a high cutting efficiency, it's made to make your output better than ever.

“The **X-CUT™ C85** is the sharpest and most durable low stretch chain I have ever used. The quality and quantity of wood chips on the ground speak for themselves!”

Andy Campbell - H-TEAM Ambassador

USING DIFFERENT CHAINS

Husqvarna offers a wide range of chains for different needs. Use the chart below to find the recommended chain for your chainsaw:

PITCH	RECOMMENDED cm ³	HUSQVARNA REF	CUTTER TYPE
1/4"	Pole saws, carving, battery chainsaws	H00	Micro chisel
3/8" Mini Pixel	Battery chainsaws	H38	Chamfer chisel low kickback

DESIGNED BY HUSQVARNA FOR YOUR HUSQVARNA

X-FORCE™ is Husqvarna's answer to the challenge for the perfect guide bar – that is both lightweight and low-maintenance to minimise your burden, yet durable enough to withstand tough work over long time. Husqvarna **X-FORCE™** guide bars are developed alongside Husqvarna **X-CUT™** chains, optimised for Husqvarna chainsaws. The result is a cutting system that makes your chainsaw perform on an entirely new level – delivering a fast, precise kerf with minimal friction loss.

PROLONG YOUR BAR AND CHAIN LIFE

Always use Husqvarna chain oil. Incorrect use of chain oil is a common source of damage to saws and tends to lead to rapid wear of the bar, or the chain jamming or derailing. Our full range of chain oils can be found on page 315.

KEEPING STANDARDS

Testing and fulfilling ISO, EN and ANSI standards and internal standards is a priority in the development of new Husqvarna accessories. Regular testing during production ensures lasting quality.

HUSQVARNA XP® POWER 2

FUEL DEVELOPED SPECIFICALLY FOR HUSQVARNA TWO-STROKE ENGINES

There is no better fuel for your Husqvarna chainsaw than our XP® Power 2 manufactured to unique Husqvarna specifications. Conveniently pre-mixed with exactly 2% of Husqvarna XP® synthetic two-stroke oil, it provides efficient combustion leaving a cleaner, cooler, healthier engine with a minimum of harmful substances in the emissions. It also prevents inner corrosion, makes starting easier, reduces the need for service and minimises downtime. VEF approved.

USING DIFFERENT BARS

X-FORCE™ BARS

The **X-FORCE™** laminated bars offer easier maintenance and increased productivity. Depending on the model, these benefits come from features such as updated profiles, larger nose sprocket, cutouts in the centre plate, additional bearings, supported shields, and the removal of the grease hole. Available in 3/8" (15–20"), 3/8" Mini (12–14") and .325" (13–20").

LAMINATED BARS WITH NOSE SPROCKET

The gentle curve and small nose radius reduce the risk of kickback and facilitates good cutting control. Coated bars to protect against scratches and corrosion. Available in 3/8" Mini (10–16").

HUSQVARNA X-TOUGH™ BARS WITH REPLACEABLE SPROCKET NOSE

Solid RSN bar with great durability and robustness. The load is transferred to the high-quality roller bearing. The bars are coated to protect against scratches and corrosion. Replaceable tip is available as a spare part. Available in 3/8" (18–28").

CARVING BAR - SMALL MOUNT

Carving bars have a smaller nose radius and are suitable for sculpting and other precision work. Available in 1/4" (10–12").

HUSQVARNA X-TOUGH™ LIGHT BARS WITH REPLACEABLE SPROCKET NOSE

A lightweight solid RSN bar. Improves the manoeuvrability while maintaining durability and robustness. The load is transferred to the high-quality roller bearing. Wear-resistant paint protects against scratches and corrosion. Replaceable tip is available as a spare part. Available in 3/8" (20–36").

HUSQVARNA X-TOUGH™ BARS WITH HARD NOSE

Recommended for use with long bars to reduce load on the bar tip. The load is transferred to the high-quality roller bearing. The bars are coated to protect against scratches and corrosion. Replaceable tip is available as a spare part. Available with 3/8" chain pitch in lengths 18–28".

HUSQVARNA X-PRECISION™ BARS

The X-Precision™ bars are designed specifically for use with the X-Cut™ SP21G chain on battery-powered professional chainsaws. The optimized overall geometry and small nose radius provide efficient cutting with precise control, excellent bore cutting properties and reduced risk of kickback. Available in .325" mini (10–16").

FILING EQUIPMENT

A sharp chain is as important as a powerful engine. For your chainsaw to operate effectively, safely and with precision it is vital to have a sharp chain. How often it needs to be sharpened depends on how frequently you use it. A good indication of the condition of your chain is the appearance of the wood chips. A sharp chain will produce fine, even wood chips, while a dull chain generates sawdust. You'll need a round file, a flat file and a filing gauge to file a chain. We also recommend that you use a stump vise to hold the bar, leaving both hands free for filing.

FILING THE CUTTING TEETH

File using light and even pressure, with gentle pushing strokes, parallel to the gauge. Try to get the same length of all cutters.

INTENSIVE ROUND CUT FILES

Designed for optimal cutting performance and longer lifetime.

Item	Order PNC
4.0mm - 3 pack	597 35 48-01
4.0mm - 12 pack	597 35 48-02
4.5mm - 3 pack	597 35 55-01
4.8mm - 3 pack	597 35 58-01
4.8mm - 12 pack	597 35 58-02
5.5mm - 3 pack	597 35 61-01
5.5mm - 12 pack	597 35 61-02

FLAT FILES

Quality files which give you the right geometry of the cutter.

Item	Order PNC
Flat files 6" - 12 pack	505 69 81-61
Flat files 8" - 12 pack	505 69 81-81

FILE HANDLE

Patented file locking system. Fits all our files. 25° and 30° guides ensures correct file angling.

Item	Order PNC
File handle - Round files Ø 4.5-5.5mm	505 69 78-01
File handle - Flat files	505 69 78-10

FILING THE DEPTH GAUGE

File all the way down to the gauge. If you file the depth gauge without a tool you, risk filing them too far down and the chain will produce chips which are too thick.

FILE GAUGES

Specifically designed file gauges that give the correct filing angles. Use together with our round files.

Item	Order PNC

+ THE SMART COMBI CAN

LEVEL WINDOW

For quick visual check of remaining fuel level.

MECHANICAL LOCK

The spout has a mechanical lock to prevent unexpected opening and leakage.

INTEGRATED TOOL BOX

Making it easy to bring extra tools and frequent parts.

OVERFILL PROTECTION

The flow stops automatically when the machine's tank is full, which means you can lift the combi can without spilling fuel.

ERGONOMIC GRIP

The handles are placed for optimal lifting ergonomics when carrying and refuelling.

PARKING POSITION

The spouts can be rotated into a parking position to prevent damage during transportation.

HAND SAWS

The new generation of Husqvarna saws have been ergonomically designed, to lie comfortably and safely in your hand during sawing and a stop at the end of the handle prevents you from slipping. This has proven particularly useful during pulling movements, and assists you in making smooth progress.

FOLDABLE PRUNING SAW 200FO

With a total length of 47cm, the 200FO saw is an easy-to-use all-rounder for cutting back thicker branches. It is lightweight making it ideal for all minor sawing work in the garden, and other outdoor activities.

Order PNC	RRP ex VAT	RRP inc VAT

FOR HARD WORK AND CLEAR GROUNDS

Brushcutting and grass trimming can be tough, lengthy jobs that demand endurance from both machine and operator. This is why our brushcutters, trimmers and clearing saws combine power and extreme durability with low weight. They are designed to be easy to handle and to deliver results you can be proud of. To ensure work is handled in the most comfortable way, Husqvarna offers harnesses designed to distribute the load optimally between shoulders, chest and back. For maximum comfort on long shifts.

husqvarna.com/grass-trimmers

husqvarna.com/brushcutters

WHAT YOU GET AND HOW WE DO IT

RAW POWER

The X-Torq® technology reduces harmful exhaust emissions and increases fuel efficiency, making work more comfortable and more economical.*

EASY TO START, EASY TO WORK WITH

For both petrol and battery-powered products a quick, easy start is imperative and we've made sure to develop technology to meet these demands. Just push a button or pull a cord: it's as easy as it should be.

ROBUST DESIGN

Our professional range of trimmers, brushcutters and forestry clearing saws are powerful, industrious machines, designed for many years of demanding operation.

BALANCED DESIGN

The handles are designed to be adjustable and vibration-dampened. High handle bars also make working on slopes more efficient.

LONG OPERATING

Low Vib® – engines are equipped with very effective anti-vibration dampeners that absorb vibrations, sparing your arms and hands to let you work more comfortably during long shifts.

* Compared with equivalent models without this feature.

HIGH-END RESULTS, WHATEVER YOUR NEEDS

OPTIMISED CUTTING EQUIPMENT FOR OPTIMAL RESULTS

Grass trimming or brushcutting becomes so much more rewarding when you fit the proper cutting equipment to your Husqvarna product. Husqvarna offers a wide range of proven trimmer lines, grass blades and grass knives with original equipment quality, optimised for your specific machine. For further guidance see pages 124–129 or consult your nearest Authorised Husqvarna dealer.

Find out more at www.husqvarna.com/uk

OCCASIONAL USE 100 SERIES

TRIMMERS FOR DOMESTIC GARDEN MAINTENANCE AND OVERGROWN AREAS

Powerful and reliable trimmers, the perfect choice for giving lawn edges a great finishing touch, as well as trimming grass in those hard to reach places. All easy to handle and designed to help get the job done effortlessly.

PART-TIME USE 100 - 300 SERIES

BRUSHCUTTERS AND TRIMMERS FOR MORE DEMANDING JOBS

Designed for demanding domestic and landowner use. Perfect for farm and estate maintenance. 135R is perfect for large areas, supplied with a grass blade. 325iL battery trimmer is perfect for domestic maintenance in noise sensitive areas.

FULL-TIME USE 500 SERIES

BRUSHCUTTERS FOR FULL TIME PROFESSIONAL USE

High performance petrol and battery brushcutters designed for full-time professional use in demanding conditions. A choice of both loop and bullhorn handles to suit a range of different applications.

! STARTING AS EASY AS IT GETS

The Husqvarna 500 series of trimmers and brushcutters are equipped with intuitive controls for purge and choke. SmartStart® minimises the effort to pull the starter cord, and the stop switch automatically returns to the "ON" position. This makes the starting procedure virtually fail-safe.

HIGH HANDLEBAR

High handlebar gives increased legroom when working on slopes, which makes operation more efficient.

OCCASIONAL USE

Low weight grass trimmers designed for domestic use. The products are designed to be user friendly with features including Smart Start® and auto-return stop switch for maximum ease of use on the petrol products. For ultimate ease of use select the battery powered version which offers no direct emissions, low noise and low weight.

Ideal for applications including:

- Domestic garden maintenance
- Trimming lawn edges and around obstacles
- Mowing overgrown areas - grass blade products

110iL

Light, convenient and easy to use high efficiency battery trimmer for homeowner use. Ideal for trimming lawn edges.

- Intuitive keypad
- Edging mode
- Automatic shut down
- Automatic line feed
- Adjustable front handle
- Kit includes B70 and C80

PART-TIME USE

Machines designed for demanding domestic and landowner use. Choose the 315iC for lighter applications and for use in noise sensitive areas, ideal for demanding domestic use. For more heavy duty medium density applications or when used for longer periods select the 135R which is supplied with ergonomic harness and grass blade. Products are supplied with a highly efficient line head.

Ideal for applications including:

- **Property maintenance**
- **Overgrown areas**
- **Mowing larger areas (135R)**
- **Noise sensitive areas (battery)**

Page 302

HARNESSES

Ergonomically designed harnesses for optimised load distribution. Our harnesses effectively distribute the weight of the machine, for the best possible balance. This makes the machine feel lighter, easier to manoeuvre and less strenuous to operate.

Ideal for applications including:

- **Brushcutters**
- **Pole products**
- **Battery products**

BALANCE 35

Ergonomically designed harness that distributes the load optimally between your shoulders, chest and back. Designed for use with smaller brush cutters.

● = Available (●) = Accessory — = Not available *Equivalent sound pressure level, according to ISO 22868, is calculated as the time-weighted energy total for different sound pressure levels under various working conditions. Typical statistical dispersion for equivalent sound pressure level is a standard deviation of 1 dB (A). **Noise emissions in the environment measured as sound power (LWA) in conformity with EC directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1–3 dB(A). ***Equivalent vibration level, according to ISO 22867, is calculated as the time-weighted energy total for vibration levels under various working conditions. Reported data for equivalent vibration level has a typical statistical dispersion (standard deviation) of 1 m/s².

! ALWAYS USE GENUINE HUSQVARNA LUBRICANTS AND SPARE PARTS FOR YOUR BRUSHCUTTER OR TRIMMER

These high quality spare parts and lubricants are developed to facilitate the care and maintenance of your Husqvarna equipment and enable trouble-free operation and storage. Husqvarna recommend regular service done by qualified technicians using only Husqvarna original or recommended spare parts. This will support the product's performance and lifetime. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

husqvarna.com/combi-trimmers

ATTACHMENTS THAT HELP YOU GET RID OF EVERYTHING

Start by choosing the machine that best suits your needs – then explore our wide range of attachments. Each attachment offers a quick connection, durable design and – most importantly – sufficient power to trim dense grass, cut vigorous bushes, blow or sweep huge piles of leaves and debris. Just to give some examples of what we can help you get rid of.

ENJOY HIGHLY EFFICIENT WORK – AT WHATEVER HEIGHT

We never compromise when it comes to power, durability and productivity. Therefore, we have designed our combi machines to work equally well as our conventional machines. This means that you can enjoy convenient and powerful pole sawing, as well as really efficient and reliable cultivating.

MAXIMUM VERSATILITY WHATEVER THE TASK

Our combi trimmers are the perfect choice if you want to have a truly smart, versatile work tool. You will only have to start and warm up one machine – then you are able to quickly and easily switch between many attachments to deal with all kinds of tasks – all year round. For maximum ease of use and low noise select the battery powered 325iLK which is designed for part-time use. The petrol and battery power units, together with all attachments, are as powerful and efficient as the conventional trimmers, pole saws, hedge trimmers, and so on. Also, a combi machine means less space for storage as well as less time and money for maintenance and service.

RELIABLE PERFORMANCE

The petrol and battery power units, together with all attachments, are as powerful and efficient as the conventional trimmers, pole saws, hedge trimmers, and so on. All to give you reliable workmates that help you get the job done at all times.

START UP ONE MACHINE

If you choose petrol power you will only have to start and warm up one machine – then you are able to quickly and easily switch between many attachments to deal with all kinds of tasks – all year round.

OCCASIONAL / FULL-TIME USE

A range of applications can be managed using one power unit making them extremely flexible tools. The 100 series Combi machine is ideal for domestic use. The battery powered 325iLK is designed for part-time use and ideal in noise sensitive areas and the 500 series is designed for full-time professional use. All attachments are designed for both domestic and full time professional use and can be used on both petrol and battery powered machines.

Ideal for applications including:

- All round garden maintenance
- Landscaping
- Bushes and trees
- Hard surfaces and soil
- Grass
- Lawn maintenance

129LK

Lightweight combi machine designed for homeowner use. Easy to start and supplied with trimmer attachment.

SHARP TOOLS FOR GREAT LOOKS

A hedge needs time and care to stay healthy and beautiful. A well-kept hedge will provide you with privacy while giving the garden solid lines and visual appeal. Different hedges need different types of tools, which is important to keep in mind when buying a hedge trimmer. All Husqvarna hedge trimmers are powerful, precise and efficient to give great results every time. They're machines designed to make your work easier.

husqvarna.com/hedge-trimmers

WHAT YOU GET AND HOW WE DO IT

BUILT TO LAST

No matter if you choose to use a battery or petrol-powered hedge trimmer, the overall robust design will provide a long service life and make sure your trimmer makes easy work of even the toughest of tasks.

LOWER YOUR IMPACT

Our battery-powered hedge trimmers are virtually free from emissions, whereas for petrol-powered machines, the engine technology helps reduce harmful exhaust emissions and increases fuel efficiency.

QUIET OPERATION

The battery operation or our low noise engine technology together with the special design make our hedge trimmers quiet and easy to use. A very important aspect for everyone who operates in residential areas.

SMOOTHER STARTING

The engine and starter have been designed so the machine starts quickly with minimum effort, getting you started quickly.

LOW VIBRATIONS

Our petrol-powered engines are equipped with effective anti-vibration dampeners that absorb vibrations, whereas battery-powered machines all produce much less vibration, sparing your arms and hands.

MAKE SURE YOU ALWAYS TRIM WITH FIRST CLASS RESULTS

EXTENDED HEDGE TRIMMERS REACH WHERE OTHERS STRUGGLE

Adjustable cutter bar angle

Telescopic reach

Push button start battery power

Articulating extended battery and petrol trimmers are perfect when you need to reach difficult places without losing performance. They have superb handling, are easy to start, suit both high and low hedges and with back folding cutting head making them extra easy to store and transport.

- + Difficult trimming
- + Low and high hedges
- + Great handling
- + Easy storage
- + Telescopic extension

DOUBLE-SIDED HEDGE TRIMMERS FLEXIBLE HANDLING AT ANY ANGLE

Double-sided hedge trimmers are designed for shaped sections of hedges. They offer efficient and comfortable operation with features such as Smart Start®, Low Vib® and adjustable handle on most models.

- + Shaping hedges
- + Coarse cutting
- + Great performance
- + Adjustable handles

Adjustable rear handle

Leaf catcher

Long cutting blade

- + Wide hedges
- + Precision cutting
- + Comfortable operation
- + Coarse Cutting

SINGLE-SIDED HEDGE TRIMMERS STRAIGHT CUTS IN ONE MOVEMENT

Single-sided trimmers are supplied with long blades and still feature an optimised weight distribution to make it easier to make straight cuts with precision. The leaf catcher helps collecting leaves and debris, saving time and effort.

Find out more on page 289

WHY CHOOSE A BATTERY HEDGE TRIMMER?

Low noise. No direct emissions. Low vibrations. Perfect balance. High performance. Extremely low operational cost. These are some of the criteria of an excellent hedge trimmer and that's exactly what you get from the Husqvarna Battery Series hedge trimmers.

Lightweight and perfectly balanced to facilitate comfortable work, even when trimming for extended hours. Plus, you'll enjoy the low maintenance of a battery-powered tool.

Low weight hedge trimmers designed for domestic occasional to part-time use. Our products are designed to be user friendly with features including Smart Start® and auto-return stop switch for ease of use on the petrol products. For ultimate ease of use select the battery powered version. 100 series are perfect for domestic garden use whilst 300 series are made for cutting denser materials and to withstand tougher work.

Ideal for applications including:

- Garden maintenance
- Trimming & pruning
- Shaping
- Farm & Estate maintenance (300 series)

! ALWAYS USE GENUINE HUSQVARNA LUBRICANTS AND SPARE PARTS FOR YOUR HEDGE TRIMMER

These high quality spare parts and lubricants are developed to facilitate the care and maintenance of your Husqvarna equipment and enable trouble-free operation and storage. Husqvarna recommend regular service done by qualified technicians using only Genuine Husqvarna original or recommended spare parts. This will support the product's performance and lifetime. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

BLOW AWAY YOUR HARD WORK

Get rid of leaves, straw, grass, cobwebs, sand, gravel – as well as the hard work. Husqvarna blowers are designed with the user in focus. Efficient and enjoyable to work with and with a range of jobs in-mind, you can be sure these blowers will handle the task effortlessly.

WHAT YOU GET AND HOW WE DO IT

HIGH POWER

Husqvarna blowers – regardless of power source – have high specification engines with optimised power output. The 580BTS delivers an air force of an impressive 40N, whereas the 550iBTX battery blower delivers 21N.

LOW NOISE

Our battery blowers offer very low noise, down to only 76.6 dB(A) on the 550iBTX. This provides a comfortable working situation for you and low disturbance for others when compared to petrol-driven machines. This makes them ideal for work in noise sensitive areas.

LONG SERVICE INTERVALS

The extensive filter area on the large petrol-powered blowers means reduced wear on the blower and longer operating time between filter cleanings.

LOW VIBRATIONS

Effective vibration damping relieves stress on the arms and hands to keep you alert and productive throughout the day.

BLOW OR VACUUM

The 125BVX can easily be turned into vacuum mode, giving you the possibility to efficiently collect debris.

husqvarna.com/leaf-blowers

BLOW THE HARD WORK AWAY

BACKPACK BLOWERS MANAGE LARGER AREAS WITH EASE

Husqvarna's backpack blowers are powerful machines that offer the user total control. They are ideal for tackling large areas and long periods of heavy work.

- + Large areas
- + Outstanding blowing power
- + Top ergonomics

HANDHELD BLOWERS VERSATILE AND EFFICIENT

Perfectly designed for efficient work in smaller to medium sized areas. Our handheld blowers combine high power with great balance, making them perfect for a variety of lighter as well as more demanding tasks. The handheld range includes both battery and petrol-powered blowers.

- + Small-medium sized areas
- + Great manoeuvrability
- + Petrol or battery power

POWERFUL AND LIGHTWEIGHT BATTERY BLOWERS

They produce no fumes and less noise – and many times they're just as powerful as their petrol-fueled equivalents. An excellent choice for challenging tasks indoors. Our battery blowers also offer low weight and smart features, along with a well-balanced design. Last but not least, they're easy to use: starting and stopping with a single button press on the intuitive keypad.

Read more about our battery series on page 14.

● = Available (●) = Accessory — = Not available *Equivalent sound pressure level at the operator's ear, measured according to EN15503 dB (A). The equivalent sound pressure level value is calculated with a work cycle of a duration of 1/7 for idling and 6/7 for racing. Reported equivalent sound pressure level for the machine has a typical statistical dispersion (standard deviation) of 1 dB(A). **Noise emissions in the environment measured as sound power (LWA) in conformity with EC directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1-3 dB(A). ***Equivalent vibrations levels (ahv, eq) at handles, measured according to EN15503, m/s². The equivalent vibration level value is calculated with a work cycle of a duration of 1/7 idling and 6/7 for racing. Reported data for equivalent vibration level has a typical statistical dispersion (standard deviation of 1 m/s²).

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

POWER CUTTERS

K 535i

Battery power cutter designed for lighter concrete jobs. Ergonomic and low weight design makes it ideal for landscapers, pavers and roofers. Thanks to low vibration levels, slim design and centred placement of the blade, you get superior control compared to conventional cutters.

- 230mm / 9" blade
- Cutting depth 76mm / 3"
- Electric retarder
- Weatherproof (IPX4)
- Specially developed blades
- Keypad with savE™
- Integrated dust suppression
- Centred blade
- Simple blade change
- Rope eyelet

DRILLING

DM 540i

The DM 540i is a powerful battery drill motor optimised for handheld drilling of diameters up to 75 mm. It can be used in light reinforced concrete for both wet and dry drilling and other suitable materials including bricks and light weight blocks. DM 540i can be used with the DS 150 drill stand for drilling of diameters up to 100 mm.

FLOOR SAWS

FS 305

The FS 305 is our lightweight and compact petrol push floor saw for asphalt and concrete cutting. Ideal for job sites that are difficult to access and for small repair jobs. It is very easy to handle and can be transported in a small vehicle.

- Low vibrations
- Low maintenance
- Cutting depth 125mm (14" / 350mm)

Power	Fuel	Vibration level	Weight

TAMPING RAMMERS

LT 5005

The LT 5005 is a well-balanced and lightweight yet powerful rammer, developed for efficient compaction of granular and cohesive soils such as clay and silt. Ideal for compaction in trenches or other narrow spaces, for example around pillars and pipes.

- Honda GXR 120 engine, specifically for rammers
- Two versions - 150 and 230mm plate width

Power	Fuel	Vibration level	Weight
2.7kW	Petrol	6.4m/s ²	61 / 62kg

husqvarna.com/power-cutters

WHATEVER YOU LOOK FOR IN A MOWER

When you're looking for a lawn mower there are many questions you will ask, and we have an extensive range of grass cutting machines to answer all of them. From self-propelled mowers to ride-on machines, different cutting methods, and attachments to give more versatility and year round use. Most of all, choosing Husqvarna means you can be sure you are buying a machine that delivers the results you expect and has the quality to keep doing this year after year.

- + Fully automatic
- + Excellent lawn quality
- + Outstanding slope performance
- + Li-ion battery power
- + Quiet operation
- + No handling of grass clippings
- + Connectivity

AUTOMOWER® ROBOTIC LAWN MOWERS PERFECT RESULTS, EVEN IN SLOPES AND COMPLEX AREAS

If a well-kept lawn is at the top of your wish list and lawn mowing is close to the bottom, then a robotic lawn mower will give you the best solution. In fact, unless you are a really skilled lawn care specialist, you'll hardly be able to beat this robot when it comes to producing an excellent result. On especially demanding lawns, you can rely on the hard working robotic mower Automower® AWD, where the excellent all-wheel-drive easily handles slopes of up to 70%, around the clock, day in day out.

WALK BEHIND LAWN MOWERS TRADITIONAL LAWN MOWING JUST GOT EASIER

For those who have decided on having a walk behind lawn mower, we can offer a range of machines that will fit many different types of lawns and users. If you want the versatility of different cutting methods, we recommend the collector models which also give you both mulching and rear-eject options when mowing your lawn. Because we understand that every lawn is different, you'll find a machine that has all the features you need for great results and enjoyable work.

- + Outstanding manoeuvrability
- + Versatile cutting system
- + Collector
- + BioClip®
- + Available with battery power
- + Connectivity

ZERO-TURN MOWERS REMARKABLE RESULTS ON LARGE AREAS

If high capacity, excellent cutting results and precise manoeuvring is the combination for you, look no further. Husqvarna zero-turn mowers not only offer high levels of productivity, but are engineered to withstand the demands of any mowing job. Cutting edge ergonomics and comfort features provide everything needed to meet the requirements of demanding residential applications as well as commercial landscapers.

- + Outstanding manoeuvrability
- + Versatile cutting system
- + ClearCut™ cutting deck
- + Zero turning radius
- + Outstanding comfort

RIDERS SUPERB IN TIGHT AND HARD TO REACH SPACES

If you want to enjoy the ride while easily getting around every obstacle, then the Husqvarna Rider is undoubtedly the mower for you. It has many features and also a wide range of attachments to get the job done. The articulated steering gives the Rider excellent manoeuvrability and a small turning radius. The front-mounted deck can cut under hard to reach places, such as bushes or along fences with no problems.

- + Outstanding manoeuvrability
- + Versatile cutting system
- + BioClip®
- + Year round use
- + Collection
- + Connectivity

GARDEN TRACTORS YOUR GARDEN WORK HORSE

With high quality performance and easy operation, the Husqvarna tractors bring versatility to the garden workload. Their wide range of attachments and a built-in choice of cutting methods give our garden tractors excellent versatility. Ideal for efficient lawn care and various tasks around your land. The Husqvarna tractors can be fitted with trailers, spreaders, snow throwers and more, turning them into year round garden work horses.

- + Versatile cutting system
- + Collector
- + BioClip®
- + Year round use
- + Outstanding comfort

A PERFECTLY CUT LAWN 24/7

What does it take to make a robotic mower that can work around the clock to deliver a well-kept lawn in every garden – despite bad weather, complex shapes, steep slopes, narrow passages and other obstacles? We would say, it takes over 25 years of innovation, testing and refinement. Since 1995 we have been developing the original Husqvarna Automower® robotic mowers into the most proven, reliable and extensive range available, with one to suit any garden.

husqvarna.com/robotic-lawn-mowers

WHAT YOU GET AND HOW WE DO IT

INSTALL AND FORGET

Husqvarna Automower® robotic mowers are equipped with advanced technical solutions to deliver the highest level of reliability, quality and mowing results. This means maintenance-free operation and minimum service, giving you more free time to focus on the things that really matter.

BEAUTIFUL RESULTS

Uniquely-designed cutting system – three razor-like carbon steel cutting blades, placed behind a skid plate, making clean cuts. Shorter clippings means better fertilising, excellent cutting result with no moss and less energy consumption. And no clippings to rake and dispose of.

SUPERIOR SLOPE PERFORMANCE

Husqvarna's all-wheel drive robotic mower will make easy work out of the most demanding lawns. Since it manages slopes of up to an impressive 70% (35°) incline, it delivers perfect results even for the most challenging of areas.

HAPPY NEIGHBOURS

Our environmentally-conscious robotic lawn mowers are powered by battery. They cut the grass without harmful direct emissions and are very quiet. Neither you nor your neighbours will notice the mower rolling around doing its job.

CONNECTIVITY

Our free of charge mobile app allow you to communicate easily with your mower (except model 105). Automower® Connect from anywhere via the mobile phone network or the short distance solution Automower® Connect@HOME via Bluetooth®.

ROBOTIC MOWERS

Drive motors with Ultrasilent technology enable extremely low noise levels

Remote object detection makes the mower slow down before bumping into an object

Automower® Access – interact intuitively via high resolution colour display and jog wheel (Automower® 435X AWD)

Low weight and smart design allows for high capacity and low energy consumption

All-wheel-drive and unique articulated body design with excellent manoeuvrability – for complex and steep gardens

EXCELLENT SLOPE PERFORMANCE

Thanks to the all-wheel-drive, Husqvarna Automower® AWD can cope with slopes up to 70% (35°) whereas other models manage slopes of up to 45% (24°).

GPS-assisted navigation ensures uniform cutting result in complex gardens

Energy efficient LED lights for better visibility during night time mowing

Weather timer automatically adapts the amount of mowing to the lawn growth rate – for a carefree operation

CARE

Find out more on page 289

GPS-ASSISTED NAVIGATION FOR OPTIMAL MOWING IN COMPLEX AREAS

Husqvarna Automower® X-Line & 500 Series have an onboard GPS system that creates a map of the lawn. The robotic mower knows exactly which parts of the lawn it has covered and optimises the mowing pattern automatically.

AUTOMOWER® CONNECT JUST ADD A SMARTPHONE

Automower® Connect is a feature that gives you full control of the mower right in your smartphone. You can send start, stop and park commands, check and adjust the settings, and also receive alarms and track your mower's position in case of theft – wherever you are. Standard on X-Line, 500 Series and AWD models. **Read more on page 176.**

10 YEARS OF FREE CONNECTIVITY INCLUDED!

WHY A HUSQVARNA AUTOMOWER® ROBOTIC MOWER WILL IMPROVE THE QUALITY OF YOUR LAWN

Husqvarna Automower® uses razor-sharp blades to cut every blade of grass little by little, resulting in a lush, green lawn that conventional blades cannot achieve. The lawn is mowed frequently, in rain and shine, producing grass clippings so small that no collection is needed. The clippings become natural fertiliser, keeping your lawn lush, green and moss free.

The Weather timer function adapts the time spent mowing so Husqvarna Automower® works more in periods of strong grass growth and less in dry, sunny weather. And the electric cutting height adjustment enables you to adjust the length of your grass with a simple push of a button on the keypad, or remotely with the Automower® Connect smartphone app (X-Line and 500 Series models only).

WORKING HOURS

Your robotic mower shouldn't be working while your family members want to play and relax on the lawn. Make sure you choose a Husqvarna Automower® with enough capacity to mow the entire lawn during the time when your lawn is free of activity. All models are ideally suited to night time operation, the low noise levels ensure there is no disturbance.

EVERY GARDEN IS UNIQUE – INCLUDING YOURS

That said, the many different models in the wide Automower® range cover everything from smaller urban gardens to challenging areas up to 5,000m². Ensuring full coverage of complex lawns with remote areas and narrow spaces is a hallmark of the Automower® robotic mower. Tough slopes and uneven ground are matched by large wheels, low centre of gravity and optimized balance. If you have a garden with extreme challenges, our all-wheel drive model can tackle slopes up to an impressive 70 %.

NO NOISE, NO FUMES, NO WORRIES

Automower® will make good friends with your garden as well as your neighbours. It keeps your lawn in shape using a minimal amount of energy, it requires no petrol or oil, and there are no emissions or fumes. Automower® also has the lowest perceived noise levels on the market. With its low energy consumption, and no fuel or emissions to worry about, Automower® is an eco-smart choice.

THINGS TO CONSIDER WHEN BUYING A HUSQVARNA AUTOMOWER® ROBOTIC MOWER

To decide which robotic mower is most suitable for your needs, there are a few things to consider as mentioned below: Your desired working hours, the size of your lawn and the complexity in terms of slopes, shape, passages and other obstacles. Visit the Robotic Lawn Mower section on the Husqvarna website for more information and guidance. There you will also find our interactive Automower® Garden Guide to help you decide.

HOW IT WORKS!

Cutting little and often, leads to more efficient cutting and healthier grass.

Boundary wire

Guide wire

It's easy to set up

The working area and areas you want your Automower® robotic mower to avoid are defined by a boundary wire, which is easily laid out around the desired cutting area.

Visit husqvarna.com to learn more.

Navigation

- + The boundary and guide wires are staked to the lawn or buried just below the surface. A staked wire disappears into the lawn after a few weeks.
- + The mower stays inside the boundary wire laid around the perimeter of the working area.
- + The charging station transmits a signal to the wire that guides the mower where to cut and also guides it to the charging station.

Irregular movement pattern

- + No need for specific programming.
- + Covers all parts even if the lawn is complex and/or contains trees, flowerbeds, passages, etc.
- + Allows the grass to get cut from different directions, creating a smooth carpet-like surface.

WEEK 1

WEEK 2

WEEK 3

WEEK 4

TRADITIONAL VS AUTOMATIC MOWING TECHNIQUE

The principal function of the Husqvarna Automower® provides the service of a well cut lawn, not just a lawn mower. Things like horsepower, cutting width and technical details become less important with a Husqvarna Automower® that cuts your lawn day in, and day out.

Recharging

When it's time to recharge, the robotic mower finds the charger by using one of three methods:

- By picking up a signal from the charging station antenna.
- By following the guide wire back to the charging station.
- By following the boundary wire until it's within reach of the home signal.

@HUSQVARNAUK

Efficient cutting technique

- + The grass is cut with three fine, razor-sharp blades.
- + The three free-hanging blades are mounted on a disc and are easily replaced.
- + The blades can rotate back into the disc to minimize damage, should they hit hard objects — stones, branches, etc.
- + The grass clippings are so fine and small they don't need to be collected.

Impressive cutting result

Automower® uses razor-sharp blades to cut every blade of grass, resulting in a lush, green lawn that conventional blades cannot achieve. The grass clippings become a natural fertilizer, helping to keep lawns lush, green and moss free.

Collision and lift sensors

Collision and lift sensors increase safety. When the mower runs into an object it'll reverse, turn and choose another direction. If it's lifted, the blade and mower will stop immediately.

Mowing cycle

- + The concept is to keep short grass short.
- + Automower® finds the charging station automatically.
- + Charges for approximately 60 minutes.
- + Resumes mowing, day in and day out regardless of the weather (except snow).

How to calculate your lawn's inclination

Place a spirit level on the ground and hold it horizontally level. Measure the distance to the ground from the end of the level that does not meet the ground. Then divide that distance by the length of the level. The result you get is the inclination in %. An example: If the distance is 10 cm and the length of your spirit level is 50 cm, the inclination is 20%.

THE BENEFITS OF HUSQVARNA AUTOMOWER®

MORE FREE TIME

Husqvarna Automower® robotic mowers free you from the chore of cutting your lawn allowing you to spend time on the things that really matter.

ADVANCED NAVIGATION

Several navigation tools, including GPS (on X-Line & 500 Series), ensure Husqvarna Automower® covers your entire lawn, even in complex gardens.

AUTOMOWER® CONNECT

Control the operation of your Husqvarna Automower® from your iOS or Android smartphone, including location and theft alarm.

NO CLIPPINGS

Husqvarna Automower® cut little and often recycling the micro-clippings back into the soil as natural fertiliser improving lawn health.

NO NOISE. NO FUSS

You'll hardly notice it as it rolls around your garden doing its job quickly, quietly and efficiently. No noise, no fuss – just a great looking lawn.

WORKS IN THE RAIN

Husqvarna Automower® gives you great cutting results in any type of weather. Its vital parts are safely protected from rain, as well as dust and grass clippings.

MANAGES STEEP SLOPES

Husqvarna Automower® can cope with slopes up to 70% (35°), thanks to optimised design and smart behaviour.

MANAGES PASSAGES

Husqvarna Automower® senses narrow passages and finds its way through even the narrowest gaps.

LOW ENERGY CONSUMPTION

Husqvarna Automower® uses as little as 20W energy when in use, comparable to an traditional style light bulb.

NO TRACK MARKS

Husqvarna Automower® varies its route back to the charger in order to avoid damage and ugly tracks. Mowing in a seemingly random pattern, gives a carpet-like lawn, throughout your garden.

SMART HOME INTEGRATION

Automower® Connect using the smart phone app allows you to integrate your Husqvarna Automower® into your Smart Home. Giving you complete control.

SUSTAINABILITY FIRST

Battery-powered Automower® reduces CO₂ emissions significantly for increased sustainability.

CUTS UNEVEN LAWNS

Large wheels and a clever chassis design ensures a perfect result even on a rough lawn.

WEATHER TIMER

Automatically adjusts the mowing frequency depending on the growth conditions of your lawn. For example in drought conditions mowing frequency is reduced.

X-LINE A FULLY-FEATURED RANGE OF ROBOTIC MOWERS

Husqvarna X-Line is our most fully-featured range, designed for those who want the most advanced robotic mower. These robotic mowers are equipped with the X-Line equipment package, including:

- Automower® Connect with GPS theft tracking
- GPS assisted navigation
- LED headlights
- Front rubber bumper
- X-Line body design.

Discover NERA

Robotic mowing without boundary wires

Husqvarna Automower® NERA is a new era of robotic lawn mowers without perimeter wire. Optimised for larger lawns, the range consists of Automower® 320 NERA, Automower® 430X NERA and Automower® 450X NERA.

Designed to aesthetic perfection and equipped with next-generation intelligence, Automower® NERA easily tackles the rough terrain, tight corners and slopes of your large and complex lawn with precision accuracy, giving you the perfect lawn. From its optional wire-free installation to its smart features like object avoidance, every aspect of mowing has been optimised with you in mind – enabling more time than ever for you to enjoy your garden.

Object avoidance How EPOS works without perimeter wires

Husqvarna EPOS™ is the latest technology available for residential Automower® robotic lawn mowers. The satellite-based technology enables the mower to work within precise wire-free boundaries. All you need is your mobile phone and the Automower® Connect app to easily define the virtual boundaries. Flexible work areas and temporary stay out zones can be created giving you customisable zone control. Husqvarna's intelligent satellite technology delivers centimeter level accuracy in seconds and requires an unimpeded sky view to ensure optimal technical conditions. We offer mandatory garden checks to ensure a hassle free installation of Husqvarna EPOS™.

Object avoidance

Intelligent object avoidance through radar technology ensures precision cutting, reducing the risk of unplanned stops. When the mower detects an object on the lawn it turns away to avoid impact. Available on 430X NERA and 450X NERA models.

100 / 300 SERIES

The 100 Series is designed for domestic use on smaller flat lawns. Just like the larger models, the 100 series delivers excellent cutting results. 300 Series robotic mowers are ideal for small to mid-sized lawns with some complexity and slopes. Additional 300 series features include weather timer which adjusts the mowing frequency to match the grass growth rate and automatic passage handling for reliable navigation of narrow areas.

Ideal for applications including:

- **Small to medium lawns**
- **Areas with some complexity**
- **Slopes up to 40% (300 series)**
- **Passages (300 series)**
- **Multiple machines per installation**
- **Night time mowing**

AUTOMOWER® 105

Reliable robotic mower for smaller less complex lawns up to 600m². Ideal for replacing a traditional pedestrian lawnmower.

- Lift & tilt sensors

BLUETOOTH COMMUNICATION

AUTOMOWER® CONNECT@HOME

- Standard equipment on models 305, 310 Mark II and 315 Mark II
- Bluetooth communication up to 30 metres range
- Requires no mobile data contract
- Does not include GPS theft tracking
- Enables basic settings to be adjusted remotely

400 SERIES

400 Series robotic mowers offer the highest cutting capacities, the lowest noise levels and the most advanced features. They can handle small to large uneven, very complex lawns with ease. Additional 400 series features include, excellent terrain performance for uneven areas, Ultrasilent drive motors for no disturbance, up to 70% (35°) slope capabilities and electric height adjustment. All models feature added intelligence including GPS assisted navigation for efficient lawn coverage in complex areas.

Ideal for applications including:

- **Small to large lawns**
- **Complex areas with obstacles**
- **Multiple areas**
- **Slopes up to 70% (35°)**
- **Narrow passages**
- **Multiple machines per installation**
- **Night time mowing**

AUTOMOWER® 405X

X-LINE

Advanced ultra-quiet X-Line robotic mower for areas up to 600m², designed to handle complex, sloped or multiple areas. Ideal for replacing a small to medium pedestrian lawnmower. Features GPS assisted navigation for efficient lawn coverage in complex areas.

- Lift & tilt sensors
- Systematic passage mowing
- Weather timer

COMMERCIAL ROBOTIC MOWING

Robotic mowers are the perfect solution for efficient and sustainable management of green spaces and sports turf. With Husqvarna's new EPOS Automower® robotic technology, the mowing possibilities are made even more flexible as the need for boundary and guide is made obsolete. The Automower® 550 EPOS mower works without the need of physical wires and can be remotely programmed via Husqvarna Fleet Services™. And while they tirelessly spend their days producing a carpet-like finish, you can spend your time focusing on other more skilled tasks.

WHAT YOU GET. HOW WE DO IT.

HUSQVARNA FLEET SERVICES™

THE PROFESSIONAL WAY TO MANAGE YOUR ROBOTIC MOWERS

When you invest in our 500 Series robotic mowers, you get access to Husqvarna Fleet Services™ – a digital tool allowing you to easily monitor and control them from your smart phone, tablet or laptop. Just as easy as it should be.

FILTERS THAT MAKE YOUR MOWERS MORE EFFICIENT

Different mowers can be "tagged" to different teams, or to different locations, and then grouped for easier handling. The different user roles can also be tagged with different levels of control.

ALWAYS KEEP TRACK OF THEIR EXACT LOCATIONS

Want an overview of all your robotic mowers? Just check the map view. Thanks to the built-in GPS, you always know the exact location and status of every robotic mower. Use tags to issue commands to all mowers in specific areas for even easier fleet handling.

FULL CONTROL AND SCHEDULING FROM ANYWHERE

Forget manual controls. With Husqvarna Fleet Services™, you – and only you – conveniently control your robotic mowers from anywhere. Perfect when you want to adjust the mowing schedule or cutting height, or park them before the storm arrives. And thanks to tagging, you can exert exact control over all your mowers, grouping them and issuing batch commands, directly from your smartphone app.

+ ALL YOUR EQUIPMENT IN ONE PLACE

If you want to, you can also connect the rest of your equipment to the system by using Husqvarna Fleet Services™ sensors. [Learn more at www.husqvarna.com/uk/services/fleet-services](http://www.husqvarna.com/uk/services/fleet-services)

OPERATIONAL INSIGHTS

Should anything happen, such as an unexpected standstill for one mower, you'll immediately receive a notification to your phone. Information about where problems occur and how often give you valuable insights to continuously adjust and improve the installation, which ensure a smooth and efficient operation. Through the Automower® Machine usage tab, you can review daily user data for more insights. The information is summarised in an easy and accessible way, helping you make your fleet usage more efficient and productive.

AUTOMOWER® EPOS

HOW IT WORKS

Automower® EPOS is a satellite powered guidance technology for robotic mowing. Satellite signals are received by both the mower and the reference station. To achieve an accuracy of 2-3cm Real-Time Kinematic Global Navigation Satellite System (RTK-GNSS) is used. A fixed EPOS reference station is required to broadcast precision correction data to the mower. EPOS requires an unimpeded view of the satellites for signal data to be received and correction data to be sent. Tall buildings and dense trees close to or within the installation can block satellite data.

AUTOMOWER® EPOS

VIRTUAL BOUNDARIES

Automower® EPOS does not require boundary or guide wires to define the working area. The boundary wire is replaced by a virtual boundary. The use of transport parts allows easy movement between designated work areas even on paved surfaces. The mower maintains work areas using a random cutting pattern, GPS ensures even area coverage. Virtual boundaries allow for trouble-free ground maintenance such as aeration.

AUTOMOWER® EPOS PRECISE AREA MANAGEMENT

Automower® EPOS allows precision management of multiple work areas using individual area settings. Work areas can be assigned their own specific mowing schedule as well as cutting height. Temporary stay-out zones can easily be activated and de-activated depending upon the situation. Transport paths are used to move the robotic mower between work areas as well as to and from the charge station. This allows for much more flexible placement of the charging station.

www.husqvarna.com/uk

AUTOMOWER® CLUB SOLUTION IDEAL SOLUTIONS FOR SPORTS FIELDS

Automower® club solution allows for optimum cutting of sports pitches including football and rugby. It has been designed to work with Automower® 550, enabling one single installation for an entire pitch. This means that up to three mowers can run simultaneously in the same area allowing routine maintenance such as aeration and turf repairs to be carried out without the risk of damaging the boundary wire.

Learn more at
www.husqvarna.com/uk

COMMERCIAL INTERFACE HIGH SECURITY PROTECTION

The Automower® 500 series all feature a commercial human machine interface (HMI) specially adapted for use in public settings. The professional HMI, which features a START / STOP switch and LED status indicator protects against unauthorised tampering of the machine and its settings. If the robotic mower gets stolen, it's immediately locked, an alarm goes off and the built-in GPS tracking shows the mower's exact position. All the machines settings and controls are managed remotely through the Husqvarna Fleet Services™ smartphone app or via a PC or tablet.

“Parks and green spaces is an important element of Edinburgh. If we can free up what limited resources we have to look after the borders and plants, it's a winner for everybody because the borders are clean and the grass is still getting cut. It keeps it to a standard that we couldn't keep before”.

Edinburgh City Council

500 SERIES – COMMERCIAL USE

Husqvarna robotic mowers specifically developed for commercial applications. Offering the most efficient and sustainable way to consistently maintain areas of green space. Ideal for professionals and private or public enterprises who seek new ways to maintain grassed areas whilst enabling the redeployment of resources onto more important tasks. The 500 Series robotic mowers all come with Husqvarna Fleet Services™ built-in, enabling fleet management and mower control from anywhere.

Ideal for applications including:

- **Grounds maintenance**
- **Sports facilities**
- **Commercial properties**
- **Holiday parks**
- **Noise sensitive areas**
- **Slopes up to 70% (35°)**
- **Multiple machines per installation**
- **Complex areas with obstacles**
- **Night time mowing**

- Geofence with GPS theft tracking

CONTROL Receive status messages and send Start, Stop and Park commands to the mower from anywhere in the world.

CONFIGURE Brings the mower's menu system to your smartphone. Read and change the mower settings without the need of being on site.

SECURITY Receive alarm and track your mower's position in case of theft.

AVAILABLE ON GOOGLE PLAY
AND ON THE APP STORE

INNOVATIONS TO LEVEL UP YOUR GARDEN

Innovative technology, smart integrations, and partnerships helps us provide intuitive solutions that simplify your life. Intelligent features adapt to your personal needs and make the experience more engaging and supportive. Among our solutions you find voice control through Amazon Alexa or Google Home. Smart connections to sprinklers, personal calendars or local weather through IFTTT and AI driven support give you a smooth experience and great result with Husqvarna Automower®.

TIME TO START MOWING JUST ASK YOUR SMART SPEAKER

All Automower® Connect equipped robotic mowers are compatible with Amazon Alexa and Google Home. This means that all you need is to give your smart speaker a voice command, and your Automower® robotic mower will jump to the task. The smart speakers recognise the most common commands such as start, stop, park, and get status updates by simply asking Alexa. Garden care made as easy as it should be.

EXPLORE IFTTT MAKE YOUR AUTOMOWER® EVEN SMARTER

IFTTT (If This Then That) is a free, easy-to-use web-based service. It allows you to create your own applets and integrate Husqvarna Automower® even more into your smart home systems. For instance, you can set it so Husqvarna Automower® starts mowing when the home alarm is turned on. Or that it should park when the current temperature drops below a certain point – and much, much more. The limits are set by your imagination.

Please visit www.husqvarna.com/uk for further information.

CONTROL YOUR SPRINKLER AND MOWING DIRECTLY FROM YOUR SMARTPHONE

Now you can have an even more intelligent relationship with your garden. By connecting your Husqvarna Automower® to the high-performing GARDENA irrigation smart system, you can easily sync your mower and your irrigation schedule. Sit back and relax while Automower® robotic mower keeps your lawn perfectly cut and healthy. The GARDENA smart system – with its sensors that measure soil moisture, outside temperature and light intensity, and then waters accordingly – will keep your lawn green and fresh. This works with all products equipped with Automower® Connect.

OPEN API GIVING ENDLESS POSSIBILITIES

Our open API solution enables endless connectivity possibilities of personalisation and add-on features through IFTTT (If This Then That).

AUTOMOWER® INSTALLATION KITS

SMALL - Suitable for open lawn areas of max 800m² or complex lawn areas of max 400m²

MEDIUM - Suitable for open lawn areas of max 2,000m² or complex lawn areas of max 1,000m²

LARGE - Suitable for open lawn areas of max 5,000m² or complex lawn areas of max 2,500m²

Item	Order PNC
Small	967 97 21-01
Medium	967 97 22-01
Large	967 97 23-01

PROTECTION BOXES

Protection box is a small sealed box for cable connectors, to protect them against moisture during off season.

Outdoor power box is a sealed box to protect an outdoor mounted transformer.

Item	Order PNC
Protection Box	599 80 17-01

BOUNDARY WIRE

Standard 2.7mm wire used to define the working area, suitable for most installations. Heavy duty 3.4mm wire is a robust wire for demanding installations, 100% copper core and isolated surface to minimise signal loss. All variants feature a black outer layer with high UV resistance.

Item	Order PNC
Wire, 50m (Ø2.7mm)	597 23 78-02
Wire, 150m (Ø2.7mm)	597 23 78-01
Wire, 250m (Ø2.7mm)	580 66 20-06
Wire, 800m (Ø2.7mm)	580 66 20-09
Wire Heavy duty, 500m (Ø3.4mm)	522 91 41-02

HYBRID GRASS

Hybrid grass provides grip in narrow and steep areas. Reduces lawn wear on slopes or narrow passages. 1m² hybrid grass including 16 green pegs

Item	Order PNC
Hybrid Grass	598 89 60-01

TEMPORARY FENCE

Robust steel arches for temporarily fencing off areas of the lawn. Ideal for protecting spring flowers. 12 arches providing 1m² coverage.

Item	Order PNC
Temporary Fence	597 98 70-01

AREA SWITCH

Automower® Area Switch is an accessory that is used to shortcut the boundary wire, effectively creating zones that can easily be switched on or off.

Item	Order PNC
Area Switch	529 45 97-01

AUTOMOWER® BLADES

Husqvarna Automower® carbon steel safety blade. Combines high-strength properties and sharpness for a long lifetime.

Item	Order PNC
Blades - 9 pack	577 86 46-03
Blades - 45 pack	577 60 65-05

HOUSING

Protects the charging station and your Husqvarna Automower® from exposure to sun and rain.

Item	Order PNC

CEORA™

THE FUTURE OF COMMERCIAL TURF CARE.

With its huge area capacity, CEORA™ is great news for all turf care professionals. Systematic cutting and virtual boundaries deliver superb results and easier turf management on larger surfaces than ever. What's more, this low noise, emission-free* solution offers thrilling future potential. It's time to expand your horizons and embrace the future.

COVERING MORE TURF THAN EVER

Up to 75,000m²

FLEXIBLE AND HASSLE FREE ZONE MANAGEMENT

EPOS™ technology eliminates the need for boundary wires for the ultimate flexibility.

SYSTEMATIC MOWING FOR A WINNING RESULT

Choose your cutting patterns, heights and times to achieve your perfect result.

CONTROL AT YOUR FINGERTIPS

Complete operational control and surveillance from your smart phone, with Fleet Services™.

THE SYSTEM

Modular system with two drive units

The new CEORA™ robotic mower is a modular system where you select the combination that suits your operation best. An innovative split design features a drive unit and a front unit. The 546 drive unit delivers the highest cutting performance with a total capacity of up to 75,000m². The 544 drive unit can cut up to 60,000m².

Razor 43M / 43L
Features 15 high-speed steel blades, mounted on 3 cutting discs. Easy maintenance and handling is made possible by an ergonomic cutting deck service position.

Charging station CS4
A battery charging station is required to power CEORA™. The charging station comes equipped with a transformer.

Active wheel brushes

Available as an accessory, these work constantly to reduce grass from collecting on the wheels. Helping to create optimal turf, without any grass clumps.

EPOS reference station

Required for all EPOS installation, this handles the signals between the product and the satellite system. The EPOS reference station is compatible with other Husqvarna EPOS robotic mowers.

WORKING AREA CAPACITY

UP TO 25,000 M² PRO SPORTS QUALITY

Everyday care of premium sports turf or golf courses at low cutting height. A well managed, lush and dense turf can be optimally mowed with CEORA™.

UP TO 50,000 M² PRO QUALITY

For sports turf and golf courses at medium ambition level, or other facilities with high demands on turf quality. Medium turf height and normal dense quality of turf. CEORA™ to mow the area every second day.

UP TO 75,000 M² REGULAR QUALITY

For turf with lower demands and slower levels of growth. Higher cutting height and normal to low dense quality of turf. CEORA™ to mow the area twice per week.

ROBOTIC DRIVE UNIT

CEORA™ 546 EPOS™

 up to 75,000m²

 20%

 38kg

Peak-performance robotic model for large-area mowing, featuring Husqvarna EPOS™ technology. Systematic, high-precision cutting tailored for optimised flexibility within virtual boundaries. Handles very large areas such as multiple football fields, golf courses or large hotel, company or municipal facilities. Delivering a professional result on the turf, operating quietly and with zero emissions while in use.

- EPOS™ navigation with virtual boundaries
- FOTA - firmware over the air
- Systematic mowing of large areas
- Object avoidance
- IPX5 protected - hose washable
- Husqvarna Fleet Services
- Future proof with multi-carrier possibilities

ENJOY THE MOWING EVERYWHERE

Husqvarna Riders reach places you never thought possible, helping you work in narrow spaces, on slopes and across all types of terrain. But you'll find there's more to a Husqvarna Rider than just that. Our range of machines are specifically designed to offer different working solutions for different needs. With different mowing options and a wide range of attachments for everything from mowing to snow throwing, they deliver a new level of performance.

WHAT YOU GET AND HOW WE DO IT

SUPERIOR MANOEUVRABILITY

The articulated steering gives first-class manoeuvrability and facilitates driving around obstacles such as trees, bushes and flower beds.

MOWING ACCESSIBILITY

Front-mounted cutting deck gives excellent overview of the working area, allowing you to trim edges and reach into corners and under bushes with ease.

OPTIMISED DRIVER'S POSITION

Safety, stability and traction on both flat ground and hillsides. The rider's low centre of gravity contributes to excellent traction and user comfort.

PRODUCING A HEALTHY LAWN

Our Combi cutting decks feature the superior BioClip® mulching technology, which refines grass clippings into natural fertiliser, providing a rich, green and healthy lawn.

DRIVING PLEASURE

Husqvarna Riders are easy and fun to drive with precise steering, pedal-operated hydrostatic transmissions and intuitive controls.

husqvarna.com/ride-on-front-mowers

Smart display. The intuitive overview and display will give you real time updates on your rider's status.

Husqvarna BioClip® – excellent mulching technology where clippings and leaves are repeatedly circulated through the blades and cut into small pieces, to become a natural fertiliser.

Integrated tool carrier. Bring your handheld machines or batteries with you and charge them with the 12V outlet.

Increased comfort. The seat slides on a 10-degree incline, providing a correct angle of the knees regardless of the driver's height.

Power steering. Effortless turning of the wheel and increased manoeuvrability to reach the tight areas.

Powerful LED lights. Headlights with 180-degree coverage that will make it possible to keep going long past dusk, increasing productivity.

XChange Drive-in-drive-out attachment frame. Makes it easier than ever to change your rider's attachment. The deck can be flipped into service position and the attachment changed quickly and without the use of tools which minimises downtime.

Heavy-duty design. Reinforced transmission, a durable, redesigned chassis and a tough, robust frame ready to take on the toughest of jobs.

All-wheel-drive. The AWD adds traction and allows for a dependable mowing experience, no matter the surface.

HUSQVARNA 400 SERIES

A NEW GENERATION OF MOWING EFFICIENCY

When mowing a lawn, efficiency and cut quality are obvious factors that make the difference. However, there are many more things to consider. With the new generation of Riders, Husqvarna adds new levels of convenience and performance to the mix. The 400 series are a robust and powerful Rider with commercial performance in a compact, user-friendly package. The best of two worlds, really.

Not all features shown are available on all models.

STAY CONNECTED, STAY INFORMED

The 300 and 400 series have connectivity built in. With your Husqvarna Connect app you can easily access your Rider's runtime data and status. You also get help with troubleshooting as well as advice on how to best care for your product. For professional users, the connectivity also makes it possible to connect to Husqvarna Fleet Services™.

Find out more on page 289

HUSQVARNA BIOCLIP® – SUPERIOR MULCHING TECHNOLOGY

Husqvarna BioClip® is a great way to take care of grass clippings and fallen leaves. With BioClip® the clippings and leaves are repeatedly circulated through the blades and cut into small pieces, before dropping to the lawn. These cuttings are so small that they pass through the grass, down to the soil, working as a natural fertiliser. It's a convenient and environmentally friendly way to get a healthy, green lawn.

LARGE AREAS OR SMALL COMPLEX GARDENS

With cutting widths ranging from 85 to 180cm you will easily find a Husqvarna Rider that suits your preference and your garden, whether it is large and widespread or narrow and complex. Their excellent manoeuvrability and the superb accessibility offered by the front-mounted cutting decks make these ride-on mowers perform in a class of their own.

INTRODUCING THE HUSQVARNA RIDER COLLECTION SERIES

Now you can achieve a tidy lawn without clippings while enjoying all the pleasures of driving a Husqvarna Rider. The Rider Collection offers great mowing performance, both in terms of excellent manoeuvrability and problem-free collection with superior capacity.

CUTTING AND COLLECTING

The cutting deck on the Rider Collection has a special design with counter-rotating blades that efficiently cuts the grass and throws the clippings backwards to the auger. Available with a 103cm or 112cm cutting width.

MORE MOWING, LESS EMPTYING

The combination of a powerful auger compressing the grass, and a large-volume collector, is the secret behind the superior collecting capacity. The Rider Collection can hold twice the grass volume of a conventional collecting machine, so you can mow a larger area before it's time to empty.

OCCASIONAL AND DEMANDING OCCASIONAL USE

The 100 series rider is designed for domestic use in small to medium areas. The compact platform with 85cm Combi cutting deck ensures you can cut more grass in less time leaving an excellent finish without the worry of disposing of grass clippings.

The 200 series are designed for more demanding domestic and landowner use. Additional 200 series features include box frame chassis, larger exhaust silencer for lower noise, service position for deck cleaning and maintenance and a comfort seat. With 2 smaller Combi deck options available, the 200 series riders are also just as well suited working in medium size open expanses.

Ideal for applications including:

- **Small to medium lawns**
- **Complex areas with obstacles**
- **Confined areas**
- **All year round use**

R 112C

Compact rider designed for domestic use on smaller areas. Excellent manoeuvrability allows easy navigation in confined and complex areas. Bioclip® cutting deck provides excellent cutting results.

FREQUENT USE

Highly specified and versatile riders for demanding domestic and landowner use. Ideal for confined complex areas as well as open expanses. Additional 300 series features include attachment frame for powered front attachments, hour meter, fully floating deck for uneven areas and high back comfort seat. With 2 Combi deck options available the 300 series riders are adaptable to suit different requirements. With the option of AWD and a range of front attachments they are also suited to all year round use. All machines feature Bluetooth Connectivity through the Husqvarna Connect App.

Ideal for applications including:

- **Medium to large lawns**
- **Complex areas with obstacles**
- **Confined areas**
- **All year round use**

R 316TX

Easy to use versatile rider designed for frequent demanding domestic / landowner use. High torque V-Twin engine provides smooth and efficient mowing, even in demanding conditions. Choice of cutting widths.

COMBI CUTTING DECKS - 300 SERIES

Combi cutting decks offer two cutting methods: BioClip® and rear ejection. As the deck is stamped from a single piece of metal, with no seams and sharp bends to trap cuttings, the result is market-leading mulching and super-efficient ejection. Fits to all 300 series models.

FREQUENT USE

Highly specified and versatile riders with grass collection for demanding domestic and landowner use. Ideal for confined complex areas as well as open expanses. Standard RC 300 series features include ACTech™ problem-free grass collection, service position, hour meter, fully floating deck for uneven areas and high back comfort seat. With 2 cutting deck options available, the RC 300 series riders are adaptable to suit different requirements. With the option of AWD they are able to tackle more demanding situations.

Ideal for applications including:

- **Medium to large lawns**
- **Complex areas with obstacles**
- **Confined areas**
- **All year round use**

RC 320Ts AWD

High-specification Rider with ACTech™ collection system with anti-clog auger and large collection capacity. Powerful twin cylinder engine with Turn Key start, empty bag and select collection mode from seat. Model features AWD which provides improved traction on more demanding ground conditions and power steering. Choice of cutting widths.

- Collection cutting decks
- ACTech™ anti-clog auger
- Service position
- All wheel drive
- 50cm uncut circle
- Compacting 300 litre collector
- LED Headlights & hour meter
- Power steering

RC 318T

UPDATED

High-specification Rider with ACTech™ collection system with anti-clog auger and huge collection capacity. Powerful twin cylinder engine with Turn Key start, empty bag and select collection mode from seat. Choice of cutting widths.

- Collection cutting decks
- ACTech™ anti-clog auger
- Service position
- 50cm uncut circle
- Compacting 300 litre collector
- Headlights & hour meter

Engine	Engine size / Power	Transmission	Cutting width
Husqvarna 635AE	635cm ³ / 12.7kW	Hydrostatic	103cm / 112cm

Combi 103cm	967 97 81-01		
Combi 112cm	967 97 82-01		

The high capacity collection auger compacts grass clippings in to the integrated collector. The collector is easily emptied from the driver's seat by the push of a button.

The specially designed cutting deck has counter-rotating blades that efficiently cuts the grass and feed the auger. The service position allows for easy cleaning and maintenance.

All controls are grouped together maximising user comfort and ensuring safe control. Turn key start allows easy starting, no choke needed, just turn the key and go.

DID YOU KNOW?

The unique ACTech™ collection system compacts the grass collecting significantly more when compared to conventional collection systems.

PART-TIME USE

High performance, versatile riders designed for demanding landowner and landscaper use on medium to large areas. The machines have an exceptional work rate due to high manoeuvrability and the ability to access tight restricted areas. Additional 400 series features include XChange Drive-in-drive-out attachment frame for tool-less attachment change, hydraulic lift and ergonomic fully adjustable cockpit. Built with the capacity to maintain larger areas, together with the optional all year round attachments make them a highly versatile all round machine.

Ideal for applications including:

- **Larger lawns**
- **Farm and country estates**
- **Sports facilities**
- **Grounds maintenance**
- **All year round use**

R 420TsX AWD

Compact high performance AWD rider designed for demanding part time use. Extremely manoeuvrable making it ideal for tight and complex areas. XChange Drive-in-drive-out attachment frame lets you change attachments quickly and without the use of tools. Ideally suited for all year round use. Model features AWD which provides improved traction on more demanding ground conditions and power steering. Choice of cutting widths.

- BioClip® cutting decks
- Drive-in-drive-out attachments
- Power steering
- All wheel drive
- Optional cargo holder
- 70cm uncut circle
- High intensity LED Headlights
- Hydraulic lift
- Digital dashboard
- Husqvarna Connect

XChange Drive-in-drive-out attachment frame. Makes it easier than ever to change your rider's attachment. The deck can be flipped into service position and the attachment changed quickly and without the use of tools.

Increased comfort. The seat slides on a 10-degree incline, securing a correct angle of the knees regardless of the driver's height. The steering column height is also adjustable.

All controls are grouped together maximising user comfort and ensuring safe control. Smart display. The new intuitive overview and display will give you real time updates on your rider's status.

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

GET THE JOB DONE QUICKLY, WELL AND ANYWHERE

husqvarna.com/professional-ride-on-front-mowers

High power and extreme versatility in a compact, durable format. That's the winning formula behind the commercial-grade front mowers from Husqvarna. With their efficient cutting decks and a wide range of useful attachments, these agile machines will help increase your daily turnover all year round, whether you prefer diesel, petrol or hybrid technology.

WHAT YOU GET. HOW WE DO IT.

SUPERIOR MANOEUVRABILITY

The articulated steering system allows the rear pair of wheels to swing in underneath the machine. The result is superior manoeuvrability with a minimum turning radius at full lock. The compact size together with the articulated steering makes it easy to manoeuvre the machine in narrow spaces and tricky areas.

EXCELLENT ACCESSIBILITY AND CONTROL

The front-mounted cutting decks give excellent overview of the working area, enabling precise, close-up trimming. The off-set design of the cutting Combi 155 / X enables easy handling of corners and trimming against walls and fences, while the low profile gives unbeatable accessibility in under fences, bushes, park benches etc.

ALL-TERRAIN DRIVING PERFORMANCE

All-Wheel Drive (AWD) ensures traction on uneven, wet and slippery areas and slopes. The machine's low centre of gravity in combination with the high-performing AWD-system gives excellent slope and hillside stability. AWD automatically adjusts the traction on all wheels depending on situation and ground condition. Equipped with high-specified variable piston pumps with separate gear boxes for the front and rear axle. The Hybrid P 535HX uses individual electric wheel motors with traction control for maximum performance in even the most demanding conditions.

REDUCE FOLLOW-UP TRIMMING – SAVE TIME AND MONEY

Studies* show that large-scale commercial mowers only mow about 65% of the total area of the areas they work on. The remaining 35% has to be taken care of later, using a walk-behind mower or a trimmer. The result is markedly lower productivity and more expensive labour costs. And in the end, reduced profitability. The reason for this is that most commercial Ride-on mowers aren't designed for the complex lawn shapes that professional landscapers have to deal with on a daily basis. The exception is our 500 series of compact front mowers. These machines offer lots of smart solutions that reduce the amount of follow-up trimming to 20%. Which means you finish the job earlier and can be on the way to the next one.

* Studies comparing the mowing productivity of a rear-wheel steered front mower equipped with 155cm cutting deck versus a Husqvarna P 500 equipped with 132cm cutting deck, carried out during a full cutting season.

EFFICIENT ERGONOMICS MAXIMISE PRODUCTIVITY

Our commercial front mowers are equipped with ergonomic operator's interface for a comfortable ride during long working hours. Controls are easily accessible and designed for optimum user comfort. The heavy-duty hydraulic-cylinder power steering makes driving less strenuous. Large wheels both front and back provide optimal riding comfort, great accessibility and less risk of damaging delicate surfaces.

BUILT FOR YEARS OF COMMERCIAL USE

The rigid, reinforced heavy-duty steel ladder frame has an open design for excellent serviceability. For improved durability the complete rear wagon is in one piece ductile cast iron. The high-performance Combi cutting decks are stamped from a single piece of steel plate and has durable, flat-free support wheels with air-filled core to provide good dampening and smooth operation with maximum uptime.

VERSATILE ALL-SEASON USAGE

A wide range of cutting decks and attachments will make your front mower exceptionally versatile, all year round. The smart quick coupling allows attachments to be changed quickly and efficiently with a minimum of standard tools. Equipped with solid and hardened PTO shaft for maximum efficiency and durability. Husqvarna P 525DX is also available in a cabin-equipped version.

ACCESSIBLE SERVICE POINTS FOR EASY MAINTENANCE

The tilting hood and easy-access servicing points make the daily maintenance checks and servicing easy. The cutting deck features greasable mandrels that are easy to reach from above, while the service position facilitates cleaning and service under the cutting deck.

CUTTING DECKS COMBINING EFFICIENCY AND EXCELLENT CUTTING RESULT

The R180 rear discharge cutting deck utilises the hybrid power of the P 535HX to maximise the mowing capacity. The Combi 132 and 155 cutting decks (available for Husqvarna P 535HX and P 525DX) can be used for both BioClip® (mulching) and rear discharge. The deck shell has been stamped out of one solid piece of steel, allowing for an optimised airflow, which is the main reason for the high efficiency. The Combi decks are made from 4.5mm steel and are equipped with replaceable side skid wears, for a long and reliable product life.

ELECTRONIC FUEL INJECTION MORE POWER – LESS FUEL AND EMISSIONS

The P 524XEFI is equipped with electronic fuel injection (EFI). Thanks to the efficient combustion, it delivers the additional power and torque you need to maintain a higher speed in uneven terrain. It also contributes to lower fuel consumption and less emissions. Starting is easy too, since there's no need for a manual choke. Just turn the key and go.

FULL-TIME USE

The P 500 series high capacity commercial front mowers are designed for professional grounds maintenance over large expanses and areas with high complexity. Powerful and extremely versatile in a compact yet durable package with highly efficient cutting decks and a wide range of all year use attachments. The P 500 machines will help increase your daily turnover all year round, whether you prefer diesel, petrol or hybrid power.

Ideal for applications including:

- Professional grounds maintenance
- Large areas with complexity
- Parks and sports facilities
- Large residential
- Holiday parks
- All year round use

P 524X

NEW

Front-mounted petrol ride-on lawn mower, built for commercial use. Compact and versatile with articulated steering, All-Wheel Drive and a powerful engine from Kawasaki. An electric attachment lift enables efficient and comfortable work. Intended for facility management companies, sports clubs and for contractors who want a maneuverable ride-on solution for year-round duties in complex areas. Can be equipped with 112cm and 122cm combi cutting decks.

- Unique articulated steering system allows the rear pair of wheels to swing in underneath the machine, for superior maneuverability with a minimum turning radius at full lock.
- Low center of gravity in combination with the high-performing AWD-system gives excellent slope and hillside stability.
- Heavy-duty steel ladder frame with reinforcements combined with an open design for excellent serviceability.
- Heavy-duty hydraulic-cylinder power steering makes driving less strenuous.
- Equipped with a Kawasaki EFI-engine with overhead 90° valves. Controls the fuel injection and adjusts the ignition timing to assure maximum engine power with the lowest amount of exhaust emissions and the lowest fuel consumption.
- Raised control panel with all controls ergonomically positioned for easy access.
- The combi deck makes it easy to switch between mulching and rear discharge.

**P 524X EFi****NEW**

Front-mounted petrol ride-on lawn mower, built for commercial use. Compact and versatile with articulated steering, All-Wheel Drive and a Kawasaki engine with Electronic Fuel Injection for enhanced power and torque. Intended for facility management companies, sports clubs and for contractors who want a manoeuvrable ride-on solution for year-round duties in complex areas. Adapted for high capacity cutting decks up to 137cm.

- Unique articulated steering system allows the rear pair of wheels to swing in underneath the machine, for superior maneuverability with a minimum turning radius at full lock.
- Low center of gravity in combination with the high-performing AWD-system gives excellent slope and hillside stability.
- Heavy-duty steel ladder frame with reinforcements combined with an open design for excellent serviceability.
- Heavy-duty hydraulic-cylinder power steering makes driving less strenuous.
- Equipped with a Kawasaki EFi-engine with overhead 90° valves. Controls the fuel injection and adjusts the ignition timing to assure maximum engine power with the lowest amount of exhaust emissions and the lowest fuel consumption.
- Raised control panel with all controls ergonomically positioned for easy access.
- The combi deck makes it easy to switch between mulching and rear discharge.

P 524XR EFi**NEW**

Front-mounted petrol ride-on lawn mower, built for commercial year-round use. Equipped with All-Wheel Drive and the possibility to manage through FlexiDrive - a seamless transition between operator seated mode and remote-control mode on areas not appropriate for ride-on mowing. Provided with a Kawasaki engine with Electronic Fuel Injection for enhanced power and torque. Adapted for high capacity cutting decks up to 137cm.

- Through the included remote-control unit, the XR-model can manage mowing on difficult and sloped areas where seated operation is excluded.
- Unique articulated steering system allows the rear pair of wheels to swing in underneath the machine, for superior maneuverability with a minimum turning radius at full lock.
- Low center of gravity in combination with the high-performing AWD-system gives excellent slope and hillside stability.
- Heavy-duty steel ladder frame with reinforcements combined with an open design for excellent serviceability.
- Heavy-duty hydraulic-cylinder power steering makes driving less strenuous.
- Equipped with a Kawasaki V-twin engine with overhead 90° valves, high performance lubrication system, cast iron cylinder liners and dual stage canister air filter. Combines exceptional power and torque with fuel efficiency and reduced emissions.
- Raised control panel with all controls ergonomically positioned for easy access.
- The combi deck makes it easy to switch between mulching and rear discharge.

SPREADER

NEW

Robust, towed spreader for various tasks. An electrically operated spreading roller, with easily adjustable flow, ensures even and reliable spreading. The top-placed protective grid also serves as a sieve when filling with road salt, sand, gravel and fertilizer with a particle size of up to 30mm.

Requires Rear Power Outlet Kit and Trailer Coupling.

Fitment	Order PNC	RRP inc vat	RRP ex vat
P 524X Series	536 90 33-01		

**P 525DX**

Highly productive large capacity diesel machine for long shifts in very large areas.

- Powerful 1123cm³ Kubota 3-cylinder diesel engine.
- Unique articulated steering concept creates a dynamic weight transfer on the front wheels, which maximises traction in all conditions.
- The steering concept in combination with AWD and a low centre of gravity provides excellent handling on slopes.
- Commercial-grade components means uncompromised durability and maximum uptime.
- Ergonomic driver interface with modern graphic display and easy-access to all controls.
- Built-in connectivity module allows connection to Husqvarna Fleet Services™.
- Heavy-duty square tube ladder frame (4 – 10mm) with an open design for easy service access.
- PTO Shaft for maximum efficiency and versatility.
- The Combi deck makes it easy to switch between mulching and rear discharge.
- Extra wide tyres and high transport speed (18.5km/h).
- Supplied with hydraulic kit.
- LED headlights

P 535HX WITH HYBRID TECHNOLOGY. A NEW SMARTER WAY.

SMART GREEN SPACE MANAGEMENT

The most powerful front mower in the Husqvarna commercial range. Two electric motors power the wheel drive axles, while the PTO and electric generator are powered by a 1123cm³ Kubota diesel engine. The 20" wheels, all-wheel drive and articulated steering make it easy to manoeuvre even in rough terrain and complex areas. Prepared for high capacity cutting decks up to 180cm, providing an excellent result in any terrain. Commercial-grade components and ease of service make for uncompromised durability and maximum uptime.

LOWER EMISSIONS AND INCREASED OUTPUT

The incorporation of dual-energy sources combined with high efficiency in the Hybrid system enables high power output yet maintained in a compact and agile format. The power train reduces the vehicle's overall fuel consumption, CO₂ footprint and operational cost. Through an energy efficient electric drive vs normal hydrostatic drive, the energy efficiency in the machines propulsion system is improved by up to 50%. Hence depending on drive cycle, the fuel consumption is lowered by up to 30% when compared to a 19kW conventional diesel front mower working under the same conditions.

OPTIMISED PERFORMANCE WITH HYBRID POWER TRAIN

The P 535HX can be operated in two different drive modes. Electric mode is used during transportation vastly reducing emissions. Hybrid mode combines the diesel engine and battery buffer for maximum performance. Modes continuously adjust depending on cutting conditions. In normal conditions the power from the diesel engine is used to both operate the front attachment through the PTO, the propulsion and recharging of the batteries if needed. In demanding conditions, the power from the diesel engine is used to just operate the front attachment through the PTO. Power for propulsion is taken from the battery.

P 535HX

HYBRID

Powerful Hybrid commercial front mower. Two electric motors power the wheel drive axles, while the PTO and electric generator are powered by a 1123cm³ Kubota diesel engine.

- Hybrid technology using a combination of powerful 1123cc Kubota 3- cylinder diesel engine, electric generator and electric drive motors.
- Hybrid energy storage system using 4.2kWh Li-Ion 52 V batteries. Batteries are recharged when the PTO is engaged.
- Unique articulated steering concept creates a dynamic weight transfer on the front wheels, which maximises traction in all conditions.
- Electric All-Wheel Drive (AWD) with battery only quiet transport mode.
- The electric AWD propulsion system is electronically controlled via integrated sensors which ensures optimised traction. The drive wheels individually and automatically set the correct speed in all situations.
- The steering concept in combination with AWD and a low centre of gravity provides excellent handling on slopes.
- Commercial-grade components means uncompromised durability and maximum uptime.
- Ergonomic driver interface with intuitive hi-resolution touch colour screen and easy access to all controls.
- Built-in connectivity module allows connection to Husqvarna Fleet Services™.
- Heavy-duty square tube ladder frame (4 – 10mm) with an open design for easy service access.
- Engine powered PTO shaft.
- Choice of cutting decks from 132 - 180cm. X variant Combi decks feature hydraulic height adjustment.
- Extra wide tyres and high transport speed (19.5km/h)
- HVO100 ready. Hydrogenated Vegetable Oils (HVO) is a 100% synthetic diesel made from renewable materials.
- Supplied equipped with hydraulic kit.

● = Available — = Not available * Noise emissions in the environment measured and calculated as guaranteed sound power level according to EC-Directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1–2 dB(A). Noise emissions and sound pressure level can be influenced by the cutting deck used. Declared figures are for the machine equipped with the most used cutting unit for the specific mower model. For further information, see the Operator's manual. ** Sound pressure level according to EN ISO 5395-1. Reported data for sound pressure level has a typical statistical dispersion (standard deviation) of 1.2 dB(A). *** Vibration level according to EN ISO 5395-1. Reported data for vibration has a typical statistical dispersion of 0.2 m/s² (steering wheel) and 0.8 m/s² (seat).

MASTER THE MOWING AND MORE

A wide range of attachments and choice of several cutting methods give our garden tractors excellent versatility. Ideal for efficient lawn care and various tasks around your land. Choose between three different cutting systems for lawn care then fit a trailer, spreader, snow thrower and more for greater versatility.

WHAT YOU GET AND HOW WE DO IT

FEWER UNCUT AREAS

You can expect excellent results from our top-segment tractors, featuring top-class steering technology. Less vibration, minimised uncut areas and improved manoeuvrability.

EASY PEDAL OPERATION

The pedal-operated hydrostatic transmission ensures easy speed and direction control. Separate pedals for forward and reverse.

FIRST CLASS CUTTING

The reinforced and powder-coated cutting decks give improved durability and corrosion resistance.

COMFORTABLE OPERATION

Change from collecting to mulching mode with a lever on the dashboard, without leaving the seat. The blade rotation is engaged and disengaged by an electric switch.

ALL YEAR ROUND USE

A wide range of attachments and a built-in choice of several cutting methods make our tractors truly versatile and useful all-year-round.

husqvarna.com/garden-tractors

GARDEN TRACTORS

Cruise control allows the tractor to maintain consistent speed, even in rough terrain

Electric blade engagement – simply pull the switch on the control panel

Powerful and durable high-specification engines

Premium seat with armrests for maximum comfort

LED headlights for good visibility in dark conditions

The seat platform automatically changes height as seat is moved to optimise operator's position

The large and low vibration, 108cm collection deck offers improved cut quality

Pivoting, heavy-duty cast front axle ensures excellent balance and driving comfort

Not all features shown are available on all models.

RANGE OF ATTACHMENTS

A wide range of attachments adds more value to your tractor investment, making it truly versatile and useful all year round. Attach a trailer, spreader or a snow blade and complete any tasks with minimum effort.

CARE

Find out more on page 289

MULCHING OPTIONS

Frequently mowed lawns can be fertilised the natural way with the BioClip® function, which is available as standard on the larger TC models. It's also available as an accessory for the 100 series TC models and all TS models. In addition, collectors are available as an accessory for the TS models, while the TC models can be converted to rear ejection by an accessory kit. So you really can't go wrong as long as you choose Husqvarna!

SIZE AND SPECIFICATION

If you're buying your first tractor and have a smaller or mid-sized garden, our user-friendly 100 series is a good choice. Equipped with chokeless start for easy starting and pedal-operated automatic transmission, these compact tractors offer easy and safe operation, making them ideal for beginners.

For a mid-sized or larger garden, you'll need more capacity and comfort. Our 200 series are well-equipped tractors with tight turning radius,

EJECTION OR COLLECTOR

If you mostly cut large areas with long-grown grass, a tractor with side ejection (TS models) is the most suitable choice. If you prefer a tidy cutting result and want to collect grass clippings, leaves and other debris, we recommend a tractor with integrated collector (TC models).

reinforced cutting decks and electric blade engagement to enable excellent manoeuvrability, easier and more efficient mowing with less uncut areas.

If you use your tractor more frequently – even all-year-round – or will be mowing larger areas, you'll appreciate our TS 146TXD. A powerful and well equipped tractor with convenient features to guarantee a superb result. A wide range of attachments and a built-in choice of several cutting methods, give this large capacity excellent usability all-year-round.

XS800 CHARGER

Charges all 12 V lead-acid batteries from 1.2–32Ah and is suitable for maintenance charging up to 100Ah.

Fits to	Order PNC
All models	579 45 01-03
RRP ex VAT	RRP inc VAT

**TRAILER 275**

Folding tailgate for easy loading and unloading. Loading dimensions (L x W x H): 125 x 83 x 31cm. Load capacity 225kg

Fits to	Order PNC
All models	501 00 82-01
RRP ex VAT	RRP inc VAT

ROLLER

Fill with water or sand to add weight. For levelling ground or consolidating newly sown seed. Working width 91cm

Fits to	Order PNC
All models	965 89 94-01
RRP ex VAT	RRP inc VAT

SPREADER 75

Ideal for applying seed, fertiliser or salt. Spreading width of 300 – 360 cm. Capacity of 70kg. Adjustable flow.

Fits to	Order PNC
All models	967 02 72-01
RRP ex VAT	RRP inc VAT

GRAVEL HARROW

Sturdy harrow with rubber wheels. Has spring tines that fold when you reverse. Working width 110 cm.

Fits to	Order PNC
All models	953 51 24-01
RRP ex VAT	RRP inc VAT

ATTACHMENT PLATFORM

Attachment platform for aerator, plug aerator and dethatcher. Attachments are easily changed without tools.

Fits to	Order PNC
All models	586 63 72-01
RRP ex VAT	RRP inc VAT

AERATOR

Allows air, water and nutrients to reach the soil. Rustproof blades. Requires platform.

Fits to	Order PNC
Attachment platform	586 63 69-01

*Noise emissions in the environment measured and calculated as guaranteed sound power level according to EC-Directive 2000/14/EC. The guaranteed sound power level includes variation in production as well as variation from the test code with 1-2 dB(A). **Sound pressure level according to ISO 5395 an EN 836. Reported data for sound pressure level has a typical statistical dispersion (standard deviation) of 1.2 dB(A). Noise emissions and sound pressure level can be influenced by the cutting unit used. Declared figures are for the machine equipped with the most used cutting unit for the specific mower model. ***Vibration level according to ISO 5395 and EN 836. Reported data for vibration has a typical statistical dispersion of 0.2 m/s² (steering wheel) and 0.8 m/s² (seat). ****Measured on trim side turn.

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J 1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

MOWING TO A FASTER FINISH

Whether you're using them at work or at home, Husqvarna zero turn mowers get your work done quickly and efficiently. A zero turning radius means no grass is left uncut when you reach the end of a mowing row and make a 180° turn to start the next row. Designed specifically to endure tough working conditions, we've included top ergonomic features and comfortable operator functions to focus on meticulous cutting results.

WHAT YOU GET AND HOW WE DO IT

PRECISE MANOEUVRING

Zero-turn steering with the individual, hydraulic wheel-drive systems provide precise manoeuvring.

COMFORTABLE OPERATION

Large wheels, comfortable seat, excellent overview and conveniently located controls provide a smooth, efficient ride.

SUPERB CUTTING RESULT

The ClearCut™ cutting deck provides a unique combination of durability, performance and cutting results. This design enables superb results for discharge and collection as well as for mulching.

DURABLE DESIGN

The rugged frame and casters are designed to ensure high durability and reduce chassis flex. The maintenance-free zero turn transmission provides trouble-free performance.

INTEGRATED PARKING BRAKE

The automatic parking brake system automatically activates or deactivates as the steering levers are moved outward or inward, which means the user doesn't have to do it.

CARE

Find out more on page 289

HUSQVARNA CLEARCUT™

SOLID DURABILITY WITH PERFECT CUTTING RESULTS

The ClearCut™ cutting deck boasts a unique combination of durability, performance and cutting results. This design enables superb results for discharge and collection as well as for mulching. The powerful airflow discharges the clippings at high speed to prevent clogging.

- Welded 3.6mm steel structure with side wear protection
- 125mm deck height for high air volume
- Optimally located internal baffles
- High-lift blades for powerful airflow
- Cast-iron spindles for high stability
- Oversized discharge chute

DEMANDING OCCASIONAL USE

High-specification zero turn mower designed to deliver great cutting results without compromising quality or performance. The zero turn mower is ideally suited to demanding domestic and landowner use. Conveniently compact, giving you excellent manoeuvrability, mowing efficiency and mowing comfort. Featuring a highly durable ClearCut™ fabricated steel cutting deck offering excellent clipping dispersal as well as a producing class leading airflow, ideal when used with the optional grass collector.

Ideal for applications including:

- **Demanding domestic use**
- **Landowner use**
- **Medium to large areas**

Z242F

High-specification domestic use zero turn mower with ClearCut™ fabricated deck, ergonomic controls and powerful twin-cylinder engine.

- Side Eject (BioClip® optional)
- Ergonomic control panel
- Optional collector
- Console mounted deck lift
- ClearCut™ fabricated deck
- Integrated parking brake

FULL-TIME USE

High-specification commercial-grade zero turn mower built with the toughest materials to ensure high durability, productivity and long service life. Designed for high-class cutting performance, operator comfort and serviceability. The zero turn mower is designed for demanding full-time professional use. Featuring a highly durable fabricated steel side eject cutting deck producing excellent airflow and even clipping dispersal.

Ideal for applications including:

- Professional grounds maintenance
- Larger areas
- Parks and sports facilities
- Large residential
- Holiday parks

Z560X

Commercial-grade, zero-turn mower with high cutting capacity and great manoeuvrability, for efficient mowing of large areas. The 152cm fabricated steel deck produces an excellent cut quality, while the durable design and easy maintenance make for a long and trouble-free product life.

- Commercial-grade large capacity 2-cylinder Briggs and Stratton Vanguard engine.
- HydroGear ZT5400 commercial transmission with high ground speed (19.3km/h).
- Easily accessible service points with an open design for fast and easy access improving serviceability. Tool-less access on all belt covers.
- Heavy duty 11 gauge steel tubular 2" x 3" frame with frame ramp for maximised strength and durability, increasing lifespan.
- Heavy duty and high performance 152cm side eject deck fabricated from 7 gauge steel for maximum performance and durability. Features rear mount support struts which increase durability by reducing stress on the mower frame.
- 10" cast blade spindles for increased strength and operating lifetime.
- Mulch kit including blades available as an accessory.
- Ergonomically designed operator interface with all controls within easy reach. Interface features LED lit fuel gauges.
- High specification suspension seat with bolstered cushions.
- Foot operated deck adjustment with easily visible scale.
- Foldable roll-over protection system.
- Dual fuel tanks - 45 litre total capacity.
- Heavy duty 13" run flat free front tyres.
- Integrated parking brake.

A PERFECT MATCH FOR YOUR LAWN

All our lawn mowers are designed to give the highest performance and efficiency with thoughtful ergonomic solutions. They have high-specification and easy-starting engines as well as durable cutting decks, delivering first class cutting results every time. So no matter what Husqvarna model you choose, you can expect a mower that's robust, reliable and one that delivers the results for a healthy, well kept lawn.

WHAT YOU GET AND HOW WE DO IT

CONVENIENT HANDLING

The intuitive controls, easy to reach bail arms and ergonomically designed collectors are details that make our lawn mowers easy and convenient to use.

HEALTHY LAWNS

BioClip® – mulching can help to release nutrients like nitrogen into the soil that are beneficial for growth and overall lawn health, preventing weed growth.

QUIET AND CORDLESS

Our battery-powered mowers enables quiet, efficient collector mowing without the need for petrol or power cords. Ideal for a smaller or mid-sized lawn.

EASY STARTING

Husqvarna petrol lawn mowers are easy to start. Some have features like auto-choke. The battery mowers are even easier – just unlock and push down the bail arm!

VARIABLE SPEED

The variable speed function allows you to adjust the drive speed of the machine to suit your own walking speed.

SIZE AND COMPLEXITY OF YOUR LAWN

The larger lawn you have, the more you will benefit from a self-propelled mower with a wider cutting deck. A mower with smaller cutting deck and variable speed provides better manoeuvrability if your lawn has many narrow passages and obstacles to mow around.

HOW TO START

Want effortless starting, a battery mower is the natural choice – just push the button.

STORAGE AND TRANSPORT

Do you plan to transport your mower? Then you should consider a compact, lightweight mower with foldable handles.

WHY CHOOSE A HUSQVARNA BATTERY MOWER?

Husqvarna battery-powered lawn mowers are quiet, efficient collecting mowers that are extremely easy to use. Ideal for mid-sized lawns or for trimming areas that a robotic mower or ride-on mower can't reach. Powered by the same BLi batteries as all Husqvarna Battery Series products.

COLLECTING OR MULCHING

If you prefer a tidy cutting result and want to collect grass clippings, we recommend a mower equipped with collector. However, a mower with BioClip® (mulching) function provides a more healthy lawn without need for fertilising or emptying the collector, provided that you mow frequently enough.

DURABLE COMPOSITE DECK

The cutting deck on the 200 and 300 series is made from a composite material developed specifically for Husqvarna. It is extremely durable, lightweight, corrosion resistant, doesn't crack and withstands dents and sun bleaching. In short, virtually indestructible.

PRODUCT USE GUIDE

! ALWAYS USE GENUINE HUSQVARNA LUBRICANTS AND SPARE PARTS FOR YOUR LAWN MOWER

These high quality spare parts and lubricants are developed to facilitate the care and maintenance of your Husqvarna equipment and enable trouble-free operation and storage. We also supply the most frequent service parts for our products. See your owner's manual or consult your Authorised Husqvarna dealer if any uncertainty occurs.

IMPORTANT! Check the oil/lubricant levels before each work shift and top up.

Recommended frequently used parts for lawn mowers:

- Mulch blades
- Standard blades
- Collect blades.
- Engine oil 10 W/30
- Spark plugs
- Air filters and oil filters

Always read your owner's manual or contact your dealer for recommended parts for your machine.

NOMINAL POWER A new machinery directive (2006/42/EC) came into force on January 1, 2010, requiring manufacturers to declare the nominal power of engines, in kilowatts (kW). The power rating of the engines indicated is the average net power output during a normal working situations and meets applicable noise regulations (at specified rpm, see owner manual) of a typical production engine for the engine model measured to SAE standard J1349/ISO 1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.

BREAK NEW GROUND IN NO TIME

Designed to take tough treatment, Husqvarna tillers are built to withstand intensive operation over many years. Their comfortable handle system and well-grouped controls make them easy to work with and the anti-clockwise rotation system breaks up soil with ease and efficiency.

WHAT YOU GET AND HOW WE DO IT

EASY MAINTENANCE

The durable and detachable transmission housing with lubrication nipple means reliable operating over many years as well as easy maintenance.

CONVENIENT WORKING POSITION

The ergonomically designed handlebar with soft grip and easy-access controls provides convenient working position.

DEEP-DIGGING OR SURFACE PREPARATION

The helicoiled tines rotate anti-clockwise and break up the soil smoothly even in tough conditions. This solution makes the tillers capable of deep-digging heavy soil as well as preparing the surface for a seedbed.

BUILT TO LAST

All components in our tillers are of the highest quality and thoroughly tested to ensure optimal durability.

ADDED VERSATILITY

The ridger accessory when used with the TF 325 creates ridges when planting potatoes, helping to protect against weeds and daylight.

MORE CLEANING WITH LESS WATER

For any cleaning around the home and garden, nature's own cleaning fluid has unexpected powers. With the range of Husqvarna high pressure washers, you will discover that water's washing performance is hard to beat when combined with world-leading technology and engineering. Fresh water should always be used sparingly, and the Husqvarna pressure washer range actually uses about 80% less water to get the job done when compared to a regular hose.

WHAT YOU GET AND HOW WE DO IT

POWERFUL CLEANING

With their high working pressure, adjustable nozzles and smart detergent control, Husqvarna pressure washers deliver maximum cleaning performance with minimal use of water.

EFFICIENT WORK

The spray lance is ergonomically designed and the swivel couplings prevent tangling of the extra-long, flexible high pressure hose. The trigger starts and stops the motor automatically.

GREAT VERSATILITY

Use your Husqvarna pressure washer with surface cleaners, brush kit, extension hose, foam sprayer or any of the many accessories available to make your work easier.

ROBUST DESIGN

All Husqvarna pressure washers are built with high-quality components for a long service life. The larger models have features like induction motor, brass pump head and steel reinforced hose.

FLEXIBLE HIGH-PRESSURE HOSES

Each series is equipped with a high quality, flexible, high pressure hose to prevent tangling. The PW 480 features a steel reinforced high pressure hose with a rubber overlay to ensure durability while retaining its flexibility.

husqvarna.com/pressure-washers

PRESSURE WASHERS

Aluminium telescopic handle

Hose reel for convenient and efficient storage of hose with easy roll-up

The trigger's activation is perfectly adjusted to your fingers. This means less effort and more comfort for your hand, especially during prolonged use.

The spray lance features double swivel functions and quick connections for hose, nozzles and accessories to maximise your efficiency and comfort

Induction motor combines great performance with high durability

Metal pump for increased reliability and lifetime

Long spray lance allows for ergonomic working positions

Aluminium carrying handle

Automatic switch-off shuts down the motor when you release the trigger

Extra-long hose for extended reach and work efficiency

Two nozzles and a foam sprayer are included

On-board cable storage enables fast set-up and prevents the cord from tangling

Not all features shown are available on all models.

OCCASIONAL USE

Compact series of pressure washers with robust and purposeful design, ideal for most cleaning tasks around the home and garden. Two swivel functions for nozzle adjustment and quick connection prevent hassle when setting up and using the pressure washer. Both models feature on-board accessory storage, hose reel and power cord storage making operation and storage easy and efficient. Products are supplied with two nozzles and foam sprayer for applying detergent. The PW 235R features remote pressure adjustment operated from the spray lance allowing the water pressure to be easily set whilst working.

Ideal for applications including:

- **Occasional domestic use**
- **Household and garden cleaning**
- **Smaller paved areas, decking and pathways**
- **Smaller vehicles and bicycles**

PW 125

Compact and lightweight pressure washer, ideal for easy and convenient cleaning of garden furniture, pathways and vehicles.

- 7m reinforced hose
- Aluminium pump
- Quick Connect couplings
- On board storage

PW 130	970 64 80-02		

PART-TIME USE

High specification pressure washers offering the highest levels of performance and product lifetime. Built for the toughest cleaning applications including larger vehicles, driveways and large paved areas. The longer hose lengths allow increased cleaning area coverage without the need to re-position the pressure washer.

Both models feature large wheels and aluminium telescopic handle which makes the products easy to transport and store. High performance induction motors ensure maximum cleaning performance whilst remaining quiet. Products are supplied with two nozzles and PW 350 a foam sprayer for applying detergent.

The PW 480 features pressure control for optimal adjustment and minimum water consumption, as well as an on board detergent tank.

Ideal for applications including:

- **Demanding domestic and landowner use**
- **Larger paved areas, decking and driveways**
- **Vehicles and machinery**

PW 235R

Robust all-round pressure washer with remote control making it easy to set your required pressure while working. Aluminium pump provides long lifetime.

- 8m reinforced hose
- Aluminium pump
- Remote pressure control
- Quick Connect couplings
- On board storage

ACCESSORIES

A range of specialist Husqvarna accessories designed for tackling specific applications, making your pressure washer much more versatile and efficient.

Ideal for applications including:

- **Cleaning hard surfaces, paved areas, decking and driveways**
- **Cleaning vehicles and machinery**
- **Unblocking pipes and guttering**
- **Cleaning delicate surfaces**
- **Water removal**
- **Cleaning solution & detergent application**

SURFACE CLEANER SC 300

SC 300 is a compact rotating splash free cleaner with pressure regulation. It is suitable for cleaning both vertical and horizontal larger surfaces such as patios, driveways, terraces and walls.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
PW 125 - PW 130 - PW 350	590 65 79-01		

VEHICLE KIT

Vehicle kit contains a wide fan jet nozzle for a quick and gentle cleaning of sensitive surfaces, an angled nozzle for hard-to-reach areas such as wheel arches, and a wash brush with a squeegee.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT

All models	590 66 06-01		

FOAM SPRAYER FS 300

Foam sprayer FS 300 is an efficient and fast covering foam sprayer with long lasting cleaning effect which maximises detergent performance. The FS 300 saves up to 30% cleaning solution compared to a standard foam sprayer.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
PW 125 - PW 130 - PW 350	590 66 04-01		

SURFACE CLEANER SC 400

SC 400 is a large rotating splash free cleaner with pressure regulation. Supplied with an extra set of high pressure nozzles for removal of stubborn dirt. It is suitable for cleaning larger surfaces such as patios, driveways, walls and terraces.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
All models	590 65 78-01		

ANGLED SPRAY LANCE

Angled spray lance with an integrated nozzle is designed for cleaning hard-to-reach areas such as under chassis, car wheel arches or roof gutters.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
All models	590 66 11-01		

PIPE CLEANING HOSE - 15M

The flexible self-feeding pipe cleaning hose is perfect when cleaning pipes, blocked drains or rain gutters. The two nozzles included enables efficient cleaning in both small and large diameter pipes.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
All models	590 66 10-01		

WATER SUCTION NOZZLE

Water suction nozzles turns your high pressure washer into a pump for removal of large volumes of unwanted water. Ideal when dealing with excess flood water, emptying ponds or drying up pools on the patio.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
PW 125 - PW 130 - PW 350	590 66 05-01		

EXTENSION HOSE - 8M

8 metre extension hose with textile reinforcement making it durable and highly flexible, also features quick connection. Hose is designed to increase working area and can be used for pressures up to 150 bar and temperatures up to 65°C.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
PW 125 - PW 130 - PW 350	590 66 08-01		

EXTENSION HOSE STEEL ARMED - 10M

10 metre extension hose with steel reinforcement making it robust and highly flexible, also features quick connection. Hose is designed to increase working area and can be used for pressures up to 160 bar and temperatures up to 100°C.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
All models	590 66 09-01		

PRESSURE WASHERS

SUCTION HOSE - 3M

3 metre suction hose enables to feed water to your high pressure washer from alternative sources such as rain water tanks and barrels. It is recommended to also use a separate water filter (PNC 590 65 93-01) to prevent dirt damaging the pump.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
All models	590 65 97-01		

WATER FILTER WF 300

Water Filter protects the pump against dirt and debris ingress when using water from an external source such as a rain water tank. It is recommended to be use with Suction hose 3M.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
All models	590 65 93-01		

BACKFLOW PREVENTER

Backflow preventer is designed to prevent dirty water from washing back into a clean water supply form the high pressure washer.

Fitment	Order PNC	RRP ex VAT	RRP inc VAT
All models	590 65 95-01		

CLEANING SOLUTIONS

Stone & wood cleaner - Highly effective detergent ideal for cleaning pavements, bricks and wood. Also suitable for other cleaning surfaces that endure water. Vehicle cleaner & wax - powerful and gentle detergent primarily designed for washing cars or other type of vehicles with sensitive surfaces. The detergent has a 3-in-1 effect-wash, clean and shine.

*Hand-arm vibration according to ISO 5349-1 with flat jet nozzle.

**Noise emissions in the environment measured as sound power (LWA) in conformity with EC directive 2000/14/EC.

The guaranteed sound power level includes variation in production as well as variation from the test code with 1-3 dB(A).

AN EASIER WAY TO KEEP TRACK OF YOUR EQUIPMENT

Just put a sensor on any piece of equipment and you'll always know where your machines are, how much they've been used, when they need to be serviced or replaced – and much more. If you use our professional robotic mowers, you don't even need to install a sensor. All this updated information – easily accessible from your phone, tablet or laptop – allows you to save a lot of time and money, to develop your business even further.

HOW IT WORKS

The system keeps track of your equipment either through the use of machine sensors or – in the case of our professional robotic mowers – built-in connectivity. The equipment data is transmitted via Bluetooth (for Automower® it's via 2G/3G) and can either be collected in the field via the intuitive Husqvarna Fleet Services™ app, or back in storage via the Husqvarna Fleet Services™ Gateway app. The combination of these apps gives you updated data that's automatically uploaded to the cloud-based account where you can access it from any device if you decide not to continue with the service.

Read more at www.husqvarna.com/uk/services/fleet-services

REDUCE YOUR CO₂ EMISSIONS

Whether you work for a council or a commercial contractor, reducing CO₂ emissions is an important target. The Carbon Footprint Calculator provides you with the data and insights you need to take action – and of course, to report your progress to your stakeholders.

COMPLETE FLEET MANAGEMENT, HOW IT MAKES YOUR WORKDAY EASIER

The system keeps track of your equipment through the use of machine sensors. The equipment data is transmitted via Bluetooth and can either be collected in the field via the intuitive Husqvarna Fleet Services™ app, or back in storage via the Husqvarna Fleet Services™ Gateway app. The combination of these apps gives you updated data that's automatically uploaded to the cloud-based account where you can access it from any device

ALL YOUR EQUIPMENT IN ONE PLACE

Don't rely on paperwork. With Husqvarna Fleet Services™, you just check the inventory list, and you know exactly how many machines you have of each type. Give them unique names, and you can easily tell which is which. You can add sensors to all sorts of equipment, even machines from other manufacturers. By using tags, different machines can be categorised for different purposes. This could include "tagging" machines for different locations or to different teams.

SERVICE HISTORY AND NOTIFICATIONS

By using Husqvarna Fleet Services™, you always have access to the service history for each piece of equipment, making it much easier to keep track of its status and troubleshoot in case of a breakdown. You can also get service reminders based on actual engine hours or calendar time, to make sure your equipment is always in great shape.

SEE WHEN AND HOW MUCH YOU'VE USED IT

Since the sensors track the engine hours of every machine, you can easily get an overview with Husqvarna Fleet Services™. You can produce a workday log with detailed information on how many hours they have been used every day.

TRACK THEM ALL ON THE MAP

Always keep track of where you last had your equipment. As soon as a machine with a sensor is within Bluetooth® distance from the app, its location is registered. So whenever you're looking for a machine, you just check the map to find out if it's in the storage, away for service or out working. The tag feature makes it possible to have grouped machines performing specific tasks within specific pre-set geographic locations.

+ INTEGRATED CONNECTIVITY

Selected 500 series battery and ride on machines feature a built-in connectivity module allowing easy connection to Husqvarna Fleet Services™. This allows you to see each machine's last known location, its usage statistics and service history – and much more without the need of a machine sensor. This also facilitates updates of the machine's firmware, so that it's always compatible with the latest functions in Husqvarna Fleet Services™.

All 500 Series robotic mowers are supplied as standard with Husqvarna Fleet Services™. It gives you the possibility to monitor and control multiple numbers of mowers from your smart phone, tablet or laptop. You can overview your mower's status or exact location and adjust various settings. The digital tool also sends notifications and allows you to track the mower's position in case of theft – from anywhere.

MACHINE SENSOR

The machine sensor allows you to connect all sorts of hand held and wheeled machines. This also includes products from other manufacturers.

THE PROFESSIONAL WAY TO MANAGE YOUR ROBOTIC MOWERS

When you invest in our 500 Series robotic mowers, you get access to Husqvarna Fleet Services™ – a digital tool allowing you to easily monitor and control them from your smart phone, tablet or laptop. Just as easy as it should be.

FILTERS THAT MAKE YOUR MOWERS MORE EFFICIENT

Different mowers can be "tagged" to different teams, or to different locations, and then grouped for easier handling. The different user roles can also be tagged with different levels of control.

ALWAYS KEEP TRACK OF THEIR EXACT LOCATIONS

Want an overview of all your robotic mowers? Just check the map view. Thanks to the built-in GPS, you always know the exact location and status of every robotic mower. Use tags to issue commands to all mowers in specific areas for even easier fleet handling.

FULL CONTROL AND SCHEDULING FROM ANYWHERE

Forget manual controls. With Husqvarna Fleet Services™, you – and only you – conveniently control your robotic mowers from anywhere. Perfect when you want to adjust the mowing schedule or cutting height, or park them before the storm arrives. And thanks to tagging, you can exert exact control over all your mowers, grouping them and issuing batch commands, directly from your smartphone app.

+ ALL YOUR EQUIPMENT IN ONE PLACE

If you want to, you can also connect the rest of your equipment to the system by using Husqvarna Fleet Services™ sensors. [Learn more at www.husqvarna.com/uk/services/fleet-services](http://www.husqvarna.com/uk/services/fleet-services)

OPERATIONAL INSIGHTS

Should anything happen, such as an unexpected standstill for one mower, you'll immediately receive a notification to your phone. Information about where problems occur and how often give you valuable insights to continuously adjust and improve the installation, which ensure a smooth and efficient operation. Through the Automower® Machine usage tab, you can review daily user data for more insights. The information is summarised in an easy and accessible way, helping you make your fleet usage more efficient and productive.

DO THE DAILY CHECKS YOURSELF, LEAVE THE REST TO OUR EXPERTS

With over 300 Authorised Husqvarna dealers in the UK, you're never far from professional service and support using only Genuine Husqvarna spare parts, fuels and lubricants. Our dealers are the experts in keeping your machines running safe, smooth and strong.

For more information visit www.husqvarna.com/uk/support

GET SERVICE NOTIFICATIONS FROM YOUR CONNECTED HUSQVARNA PRODUCTS

With the Husqvarna Connect app, you can get notifications to your smartphone when your connected products need a service. You can find the nearest Authorised Husqvarna dealer, make the call and even bookmark your favourite dealer directly in the app.

For more details see page 5 or visit www.husqvarna.com/uk

PROFESSIONAL SUPPORT FOR PROFESSIONAL DEMANDS

Your Authorised Husqvarna dealer can advise you on machinery and services to suit your needs. They can also supply you with Genuine Husqvarna spare parts, lubricants and accessories as well as adequate service and repair to keep your Husqvarna equipment ready for your next job. Our dedicated dealers provide professional services for your machines, to safeguard optimal performance and reliability. The Authorised Husqvarna dealer network consists of 25,000 locations worldwide, so we're never far away. See our interactive dealer locator on www.husqvarna.com/uk/dealer-locator.

KEEP YOUR MACHINES IN ORIGINAL SHAPE WITH GENUINE HUSQVARNA SPARE PARTS

Our product development always starts with you, the user, in focus, to make your work less strenuous and more efficient. This is also why every single part in a Husqvarna machine is rigorously tested to ensure it interacts optimally with all the other parts. This interaction produces the reliability and characteristics you have the right to expect from a Husqvarna, while proper servicing and using the right parts mean your equipment performs safely, reliably and economically in the long run. Genuine Husqvarna spare parts allow you to get the most out of your Husqvarna.

ENJOY OUR OFF-SEASON SERVICE OFFERS

It's wise to let your Authorised Husqvarna dealer do the service in the off-season period when your garden rests from growing and you can spare your equipment for a while. Look out for the off-season service offers and local pick-up/delivery services offered by your Authorised Husqvarna dealer. Don't forget to ask your dealer to register your product at your dealership to ensure special offers and information.

MINIMISE YOUR DOWNTIME WITH PREVENTIVE MAINTENANCE AND REPAIR

At our dealers, all servicing is done by authorised technicians. They are all specialists trained in the machines you are using. Many workshops have fixed prices for all forms of service - look out for our Service Menus at your local dealer. For each machine there is a detailed service plan, which is divided into a number of time intervals and presented to you in our Service Checklists. By maintaining your machines regularly and servicing them at the recommended times, you ensure the machines are performing optimally. You also minimise the risk of unexpected downtime. And, just as importantly, the machine will last longer.

+ ADD PERFORMANCE WITH HUSQVARNA ACCESSORIES

Why let poor equipment get in your way? Husqvarna accessories allow you to keep working – and delivering great results. By choosing Husqvarna accessories and lubricants from our extensive product range, you are guaranteed the same high quality throughout the lifespan of the product.

+ HUSQVARNA WARRANTY AND SERVICE

Consumer Use - Products and Accessories. Husqvarna provides a 24 month warranty for consumer use provided that the following conditions are met: Sale of Husqvarna products must be registered through intended applications in the Husqvarna Reseller Portal, or to its connected services. The Husqvarna Product must have a proven service history in accordance with the product operator handbook/manual (where service instructions are provided).

Professional Use - Products and Accessories. Husqvarna provides a 12 month warranty for professional use provided that the following conditions are met: Sale of Husqvarna products must be registered through intended applications in the Husqvarna Reseller Portal, or to its connected services. The Husqvarna Product must have a proven service history in accordance with the product operator handbook/manual (where service instructions are provided).

Note! Battery warranty is handled separately, see your Husqvarna dealer for details

NEW Professional users now also have the option to purchase Husqvarna UpCare extended warranty and/or service plans.

EXPECT MAXIMUM PROTECTION – NO MATTER THE PERFORMANCE LEVEL

TECHNICAL EXTREME

TECHNICAL

LAYERED PROTECTION

Our advanced protective material comprises fewer layers. This makes it lighter, without compromising protection levels. The material and layering design consists of long fibres that can become tangled in the chain.

CONFIDENT SAFETY WITH REGULAR TESTING

Protective clothing for forestry work must carry CE marking. The additional EuroTest mark shows that randomly selected samples are regularly re-inspected by an accredited institute.

Good protective equipment must withstand demanding conditions and provide the required protection. That's why we use nothing but high-quality materials. Each job comes with different requirements. Our range of protective clothing takes into consideration every type of work.

In fact, our extensive range of safety clothing, offering the latest innovations in design and materials, will provide you with the level of protection and comfort you need to get the job done.

FUNCTIONAL

CLASSIC

personal-protective-equipment

GRADED PROTECTION CLASS

All personal protection is ranked based on its ability to stop the chain at different speeds: Class 0 (16m/s), Class 1 (20m/s), Class 2 (24m/s) and Class 3 (28m/s). Tested and approved in accordance with European (CE) and International (ISO) standards.

TROUSER CUT PROTECTION AREAS

The shaded areas show the location of protective material.

MATERIALS CHOSEN FOR YOUR NEEDS

OCCASIONAL USE

WORKWEAR TWILL

The woven twill fabric has a reliable performance in workwear. It is resistant to tearing, stretching and stains, which gives it a high sturdiness.

Available in our Classic range.

270 G/M². 65 % POLYESTER / 35 % COTTON.

WORKWEAR SHINE TWILL

The woven twill fabric has a reliable performance in workwear. It is resistant to tearing, stretching and stains, which gives it a high sturdiness. The shiny yarn in the fabric creates an appealing appearance.

Available in our Classic range.

240 G/M². 70 % POLYESTER / 30 % COTTON.

PART-TIME USE

MICRO POLYESTER

Our Micro Polyester is a plain woven fabric with a soft touch. It is resistant to tearing, stretching and stains. Available in our Functional range.

190 G/M². 100% POLYESTER.

CORDURA® HEAVY

Cordura® means durability without compromise. The fabric delivers high functionality and exceptional comfort. Our Cordura® Heavy is used on the most exposed areas of the garments — around ankles and wrists for example. The fabric has a Teflon® finish which helps repel water, oil and stains. Available in our Functional and Technical ranges.

220 G/M². 100% CORDURA®.

CORDURA® LIGHT

Cordura® means durability without compromise. The fabric delivers high functionality and exceptional comfort in a lightweight fabric. Available in our Functional range.

175 G/M². 100% CORDURA® POLYAMIDE.

FULL-TIME USE

COMFORTABLE STRETCH

A 4-way stretch fabric that stretches in all directions, length-ways and across. The breathable fabric therefore gives you high movability in areas where it is needed, and provides comfortable movement. Available in our Technical range.

235 G/M². 92% POLYESTER / 8% LYCRA®.

ARAMIDE MÉLANGE

A fibre composition combining abrasion resistant Kevlar® fibres and hardwearing Cordura® fibres, making our Aramide mélange a tough fabric used for reinforcements on exposed areas.

Available in our Technical range.

240 G/M². 45% CORDURA® / 30% POLYAMID / 25% KEVLAR® ARAMIDE.

FULL-TIME USE

CORDURA® REFLEX

Cordura® means durability without compromise. The fabric delivers the wear and tear resistance needed on the most exposed areas. The reflective yarn in the fabric gives high visibility in dark and dim conditions. Available in our Technical Extreme range.

335G/M². 100% POLYAMIDE.

CORDURA® CHECKERED

The fabric delivers the wear and tear resistance needed on the most exposed areas. Coated on the back for improved water resistance.

Available in our Technical Extreme range.

225 G/M². 100% POLYAMIDE.

LIGHT WEIGHT STRETCH

Our light 4-way stretch fabric stretches in all directions, length-ways and across. The breathable fabric therefore gives you high movability in areas where it is needed, and provides maximum comfort. Available in our Technical Extreme range.

190 G/M². 88% POLYESTER (14% POLYESTER COOLMAX®) / 12% ELASTANE (LYCRA®).

FEATHER STRETCH

Our lightest fabric with 2-way stretch is used for areas in need of a great movability. The fabric gives freedom of movement and high comfort. Available in our Technical Extreme range.

185 G/M². 66% POLYESTER / 34% ELASTANE.

Note: All measurements are body measurements, except the inner leg, which is a garment measurement. If a base layer is to be worn under the garment, it should also be worn when measuring. Chest: measured around the widest part of the chest. Height: from top to toe. Waist: measured around the waist. Inside leg: measured from crotch to desired length.

KEEP YOUR SAFETY CLOTHING SAFE

WASHING GUIDE

Your protective clothes are regularly exposed to sweat and oil. These substances can reach the protective layer, reducing its functionality. This is why you need to wash your clothes regularly and in accordance with their labelling. If your clothes get heavily soiled, you should wash them as soon as possible after use.

Wash the garment regularly in accordance with the instructions on the inside labelling.

Machine wash. For temperature, see inside labelling.

After washing, the garment should be stretched prior to drying. Air dry slowly.

Do not wash your protective clothes inside out. Also, do not bleach, dry clean, or tumble dry. Iron with low heat.

Clean the garment immediately if it has been subjected to petrol, oil, grease or other flammable materials. Fire hazard!

Keep the garment away from sharp objects, acids, oils, solvents, fuels and animal droppings.

REPAIR GUIDE

In addition to washing and cleaning your protective wear, you also need to check for heavily worn areas, damages and tears in the fabric. The protective functions may be seriously reduced if repairs are not carried out properly. Use the guide below for reference, and always consult your dealer if in doubt.

If a repair to the outer material is being made, do not sew into the protective material as this can reduce its protective qualities.

Damaged outer material must be repaired immediately in order to prevent the protective material becoming damaged.

The garment should be scrapped and not used again if the protective material has been: damaged, incorrectly washed, or altered from its original shape.

Adhesive must not be used when carrying out repairs as it may affect the protective material and reduce its protective qualities.

This product is no substitute for the operation of a chainsaw and does not provide total protection.

Cut-retardant apparel and materials are subject to a certain degree of aging. In professional logging, the maximum period of usage is considered to be about 12 months. In non-professional or occasional use, up to 5 years is considered acceptable.

CLASSIC – OCCASIONAL USE

REGULAR FIT

PROTECTING THE PROTECTION

The saw protection pad is completely covered, so saw dust doesn't compromise the performance of the fibre layers.

REINFORCED FOR DURABILITY

The lower part of the protection pad on the inside of the trousers is reinforced to protect the saw protection from wear and ensures high durability.

KEEP COOL

The jacket has a full-length front zip and an open yoke at the back. The ventilation zips at the back of the legs let you adjust the airflow.

PROTECTIVE PERFORMANCE CLOTHING BY HUSQVARNA

The Husqvarna Classic range is intended for occasional use and is designed with the domestic user in mind at an affordable cost. It offers the highest quality and reliability you expect from Husqvarna.

Ideal for lighter tasks such as:

- Cutting firewood
- Felling smaller trees
- General property maintenance
- Pruning
- Carpentry work

ZIPPED POCKETS

For easy access to your belongings, the jacket comes with two zipped front pockets as well as a chest pocket.

Where needed, the clothes are made of stretch fabric, allowing you to move freely, safely and comfortably.

WELL VENTILATED

Openings at the yoke and the lower back make for good ventilation. Zips under the arms and at the back of the legs let you adjust the airflow to your liking.

REINFORCED WHERE YOU NEED IT

The knees, elbows, ankles and wrists have been reinforced to withstand tough use and make your clothes last longer.

EASY-ACCESS POCKETS

The jacket has two pockets on the chest and a dedicated first-aid pocket. The trousers feature two front pockets, two back pockets, a leg pocket and a double ruler pocket.

PROTECTIVE CLOTHING MADE FOR PROFESSIONAL PERFORMANCE

The Husqvarna Technical range is designed and built to perform all day every day for professional users. Task-optimised design meets modern styling, while tough, light stretch fabrics, reinforced panels and pre-bent knees and elbows offer high resistance, durability and performance.

Ideal for applications including:

- Forestry
- Logging
- Horticulture
- Arboriculture

TECHNICAL EXTREME – FULL-TIME USE

SLIM FIT

PROTECTIVE CLOTHING MADE FOR MAXIMUM PERFORMANCE

Husqvarna Technical Extreme is our ultimate range of protective clothing. Designed for full-time intensive use in the most demanding conditions. The Technical Extreme range has been developed solely to maximise your performance offering lightweight comfort, breathability and protection. With pre-bent knees, sleeves and a slim fit in durable stretch fabrics, the garments' smart, trade specific design enables maximum performance all day, every day.

Ideal for applications including:

- Professional forestry
- Logging
- Arboriculture

ADJUST FOR PERFECT FIT

The clothing comes with hook and loop wrist and ankle strap as well as elastic drawstrings at the waist and at the lower bottom of the jacket, allowing you to adjust your gear for a perfect fit.

KEEP YOUR TROUSERS IN PLACE

Attach the boot hook on the inside of the cuff to your laces, to keep them tightly secured.

BRACES INCLUDED

The trousers come with quality braces, so they stay safely and comfortably in place all day.

WELL VENTILATED

Openings at the yoke and the lower back make for good ventilation. Zips under the arms and at the back of the legs let you adjust the airflow to your liking.

EASY-ACCESS POCKETS

The jacket has two pockets on the chest, one on the sleeve, and a dedicated first-aid pocket. The trousers feature two front pockets, two back pockets, a leg pocket and a double ruler pocket.

POCKETS FOR YOUR MOBILE PHONE

The chest pockets have a padded lining for your mobile phone, keeping it well protected and within easy reach at all times.

Designed for the challenges of climbing and working in trees, the Technical Extreme Arbor trouser offers a combination of safety, agility and function. With strong and light Dyneema®, Cordura® and Kevlar® reinforcements it is made to withstand wear in areas most needed. The design combines the key features of the Technical Extreme range with features adapted to the needs of arborists to fit with climbing gear. Size S-XL.

EN381 TYPE A, CLASS 1

	Order PNC	RRP ex VAT	RRP inc VAT
	595 21 77-XX		

EXTENDED LEG

An extra three centimetres has been added to make sure the trouser stays over the boot when climbing, for protection and comfort.

EASY ACCESS POCKETS

Side pockets with reversed zips for easy access when wearing harness, and double thigh pockets with loops for storage.

! TECH-KNEE TECHNOLOGY. EXCEPTIONAL PROTECTION AND MOBILITY

ADDED PROTECTIVE LAYERS

The Tech-Knee provides excellent saw protection, thanks to the additional fibre layers. This improves safety, especially in situations where the trousers fit tight to the knee.

WATER REPELLENT

The knee has a water-resistant inner lining and an outer layer made of water-repellent fabric, keeping water and moisture from penetrating the saw protection layers. This means you can work comfortably in wet conditions for a longer time.

PRE-BENT FABRIC

The complete knee, including the waterproof layers and saw protection fabric, has been pre-bent to ensure a perfect fit in all working positions.

TECHNICAL FOR BRUSHCUTTING

SPECIALLY DESIGNED FOR CLEARING AND GARDEN WORK

Wearing a harness while working long hours with a brushcutter puts specific demands on the clothes to be comfortable and functional. Our brushcutter and trimmer clothing offers practical details in the right places, like padded shoulders and hips and ventilation zips for durable protection whilst you work.

Ideal for applications including:

- Trimming / brushcutting / hedge trimming
- Grounds maintenance
- Non chainsaw applications

PNC is for 1 x pack of 10 Gardner Hearing Protection. Please note, price is for single item

OPTIMISE YOUR MACHINE'S PERFORMANCE

husqvarna.com/oils-fuels-and-lubricants

RIGOROUS TESTING

At Husqvarna, we test oils in hot temperatures to see if the machine stays lubricated, and in the cold, to check it starts easily.

VERIFIED ENGINE FORMULA

We also test for thousands of hours in real life field tests. Only the oils that fulfil our strict requirements get the VEF label.

PROVEN PERFORMANCE

Compared to other oils, Husqvarna oils have been proven to leave less deposits on the pistons. Reducing damage at high temperatures.

THE RIGHT TEMPERATURE

Oils are developed and continually tested to keep the right temperature and to ensure that your engine gets the optimum lubrication it needs.

BETTER FOR YOU, BETTER FOR YOUR HUSQVARNA

There is no better fuel for your Husqvarna product than our alkylate petrol manufactured to unique Husqvarna specifications. Our XP® Power 2 is conveniently pre-mixed with exactly 2% of Husqvarna XP® synthetic 2-stroke oil, providing efficient combustion leaving a cleaner, cooler, healthier engine with minimal harmful substances in the emissions. It also prevents inner corrosion, makes starting easier, reduces the need for service and minimises downtime. VEF approved.

GIVE YOUR HUSQVARNA ENGINE THE BEST CONDITIONS TO DELIVER ITS FULL POTENTIAL.

- ✓ Prevents downtime
- ✓ Extends product lifetime
- ✓ Reduces need for service
- ✓ Easy start of the engine
- ✓ Long storage shelf life
- ✓ No more mixing (XP® Power 2)
- ✓ VEF – Verified Engine Formula (XP® Power 2)
- ✓ Healthier working environment
- ✓ Increases productivity and safety due to a clear mind the full working day.
- ✓ Reduces carbon footprint

DID YOU KNOW?

Our XP® Power 2 has almost no aromatics, benzene or olefins and extremely low fluorine content meaning that it is less corrosive than other fuels and one of the cleanest alkylate fuels, giving your product optimal performance; improving power, torque and startability.

HUSQVARNA XP® POWER 2

Alkylate petrol developed specifically for Husqvarna two-stroke engines. Pre-mixed with 2% of premium Husqvarna XP® synthetic 2-stroke oil (50:1). Provides efficient combustion for a clean, healthy engine with a minimum of harmful substances in the emissions. Simplifies starting and increases productivity by allowing a healthier working environment. VEF approved. Recommended shelf life is 2 years*.

OILS & LUBRICANTS

ENGINEERED TO OPTIMISE
YOUR HUSQVARNA

2-stroke chainsaw engines can run at 14,000 rpm, often under heavy load. At Husqvarna we design our engines to be durable and powerful, whilst also lightweight. This places special requirements on the oil – so it's vital to choose the right one. Husqvarna 2-stroke oils that meet our strict requirements are labelled VEF – Verified Engine Formula.

HP 2-STROKE ENGINE OIL

Formulated to work well with low-quality fuels and to meet all the tough challenges a 2-stroke engine oil can encounter. Carefully selected components in this part synthetic oil gives a cleaner engine and less coating on the piston/cylinder walls, exhaust port and crankcase. VEF approved.

LS+ 2-STROKE ENGINE OIL

LS+ oil is a mix of mineral and synthetic oils. Low smoke and has extremely good lubrication qualities on high load engine components, such as the connecting rod and bearings. It is best used for chainsaws and clearing saws with a cylinder volume up to 55cm³. It also lowers the engine temperature which extends engine life and gives a very good seizure protection against lean mix as well as carbon related piston seizures. VEF approved.

XP® 2-STROKE ENGINE OIL

An excellent, fully synthetic and biodegradable 2-stroke oil, developed for tough use with high loads and engine speed. Developed with a completely new ash-free wear additive which gives extremely good lubrication, low smoke, a cleaner engine and less coating on the piston and in the crankcase compared to competing oils. Appropriate for all Husqvarna products, especially for engines with a cylinder volume over 55cm³. VEF approved.

HUSQVARNA ACCESSORIES

Husqvarna accessories offer something for any Husqvarna fan from bags to keyrings and even tumblers. Any item from this page makes a great gift or stocking filler.

CHAINSAW KEYRING

Chainsaw keyring with bottle opener makes this the perfect companion.

Order PNC

590 96 00-01

HUSQVARNA TOYS

There's always lots to do and fix in the garden. So let's get started with your children's very own selection of Husqvarna toys!

With plenty to choose from, our range of children's toy machines is brilliant for inspiring the imagination whether they prefer trimming the hedges, mowing the lawn or even trimming its edges.

Any of the Husqvarna toys will help your little one discover the world of the outdoors through pretend play, including our ever popular toy chainsaw – now let's get to work!

TOY LAWN MOWER

Battery operated toy lawn mower with active starter, realistic sounds and flashing lights. Batteries included.
Age 3+ years.

Order PNC

582 40 63-01

RRP ex VAT

531 41 62-01		

Bubble Solution 2-Pack: 531 42 40-01

HUSQVARNA WORD BY WORD

A

ACTIVE AIR FILTRATION™ One of the most efficient air filtration systems on the market. Longer service intervals and less engine wear – even in tough conditions.

ADJUSTABLE DEPTH BAR For easy adjustment of the cultivating depth.

ADJUSTABLE HANDLEBAR Wing nut operation adjusts handlebars both horizontally and vertically for optimum working position.

ADJUSTABLE OIL PUMP An adjustable oil pump provides the bar and chain the right amount of lubrication for every task.

ADJUSTABLE REAR HANDLE The rear handle is adjustable to facilitate cutting the sides and top of hedges.

ADJUSTABLE SLIDING SEAT Adjustable while seated; seat moves forward and down, or backwards and up.

ADVANCED FLOW TECHNOLOGY (AFTECH™) AFTech™ is a unique design where the cutting deck, blade and chute produce optimum airflow. This means first class results in all cutting modes and helps to fill the collector to the optimum level, for less frequent emptying.

AGGRESSIVE WHEEL TREAD For improved wheel-to-ground traction without leaving any unnecessary tracks on the lawn.

ALL-WHEEL-DRIVE (AWD) Ensures traction on uneven, wet and slippery areas and slopes. AWD automatically adjusts the traction on all wheels depending on situation and ground condition.

ANTI-SCALP WHEELS AND FRONT ROLLER Most cutting decks are equipped with anti-scalp wheels and sometimes also a front roller. These reduce the risk of scalping when cutting uneven lawns.

AIR INDUCTION™ A powerful air stream lifts the grass before it is cut, for excellent cutting and collection of both grass and leaves.

AIR INJECTION™ Centrifugal air cleaning system for reduced wear and longer operating time between filter cleanings.

AIR PURGE Air Purge and a decompression valve make the machine extra easy to start.

ARTICULATED STEERING The unique articulated steering system allows the rear pair of wheels to swing in underneath the machine. The result is superior manoeuvrability with a minimum turning radius at full lock.

ATTACHMENT FRAME Easy to shift between cutting decks and front-mounted attachments, such as broom, flail mower, snow blade and snow thrower. No tools or belt changes needed.

AUTOMATIC BLADE ENGAGEMENT The blades are engaged automatically, when the cutting deck is lowered.

AUTOMATIC PASSAGE HANDLING The robotic mower automatically senses narrow passages and will vary its route through the passage to avoid unpleasant tracks.

AUTO RETURN STOP SWITCH Stop switch automatically resets to the ON position for trouble-free starting.

AUTOTUNE™ Provides maximum power through automatic engine setting. No time spent on manual carburettor adjustment. Autotune™ compensates for different fuels, altitude, humidity and ambient temperature.

B

BALANCE HARNESS An ergonomic harness that distributes the load optimally between shoulders, chest and back. Wide padded straps and wide back plate reduce the load. Hip pad with travelling connection reduces body movement.

BALANCE X™ HARNESS A unique ergonomic harness that effectively spreads the machine's weight and maximises its excellent balance. The machine feels much lighter, and much easier and less strenuous to move around. Ergonomic harness with broad back support that distributes the load over a larger area. The hip belt has a shock-absorbing hip pad.

BALANCE XT™ HARNESS A harness providing excellent ergonomics. The load is spread on both shoulders, over the chest and the back and on the hips. This makes the machine feel much lighter, and less strenuous to move around. A wide adjustable back plate, which is ventilated and shaped to fit the curve of the back, allows the harness to fit different body sizes. Wide, padded hip belt. The shock-absorbing hip pad has a travelling connection which reduces body movement.

BALL-BEARING FRONT WHEELS Heavy duty ball-bearings provide long lasting and trouble free service on professional models.

BAR CUTTING LENGTH The cutting length is different from its overall length. It's the distance from the front of the saw to the tip of the farthest cutter rounded to the nearest inch / cm's.

BATTERY INDICATOR LAMP Indicates when the battery is running low and it is time to get ready to charge it.

BATTERY INDICATOR WITH CHARGER CONNECTION The indicator gives clear indication on battery status, which makes it easy to see when charging is needed. The charger connection is placed next to the indicator, for extra convenient recharging of the battery. Fits Husqvarna battery charger XS 800 (new connection) and BC 0.8.

BIOCLIP® (MULCHING) The grass is cut into small pieces that quickly decompose and return to the lawn as fertiliser, also making the lawn more drought resistant. BioClip® is suitable for frequently cut areas.

BIOCLIP® FROM SEAT Easy switch between collecting and BioClip® (mulching) mode by means of a dashboard-operated central actuation device. You don't have to leave the driver's seat.

BIOCLIP® KIT / COVER Makes it possible to convert your side ejection tractor to BioClip®, which means that the grass is cut into small pieces that quickly decompose and return to the lawn as fertiliser, also making the lawn more drought resistant.

BIOCLIP® PLUG Convert your tractor from integrated collection to BioClip®. The plug is available for all TC tractors.

BLUETOOTH A standard for the short-range wireless interconnection of mobile phones, computers, and other electronic devices.

BUMPER Protects the front of the tractor effectively.

C

CARRYING HANDLE / S Facilitates lifting and transport.

CARGO HOLDER The practical carrier and compartment on the engine hood can be used for extra equipment.

CAST FRONT AXLE Heavy cast front axle provides superior balance and stability, even with a collector.

CENTRAL CUTTING HEIGHT ADJUSTMENT Quick and easy adjustment of grass cutting height with one lever.

CHEVRON TYRES Large wheels with heavy treads for optimised grip.

CHOKELESS START Easy to get operating with automatic choke. Just turn the key and go.

COLLECT BLADE Top class collection performance with minimum clippings left on the lawn, giving the lawn a tidy and nice look.

COLLECTION When collecting the grass you get a tidy cutting result. The risk of spreading weeds is less and the collected grass is easily emptied into a compost bin. You can also collect leaves and small twigs.

COLLECTORS Our large and effective tractor collectors are perfect for collecting leaves as well as grass. The integrated collectors are easily emptied from the driver's seat (TC models). The easy-to-handle collector on our lawn mowers is solid, compact and in a high position on the mower, making it easy to remove and replace. Ergonomically designed with wide opening and a support handle.

COMBI CUTTING DECK The Combi cutting deck offers the versatility of two different cutting systems. Choose between BioClip® for lawn fertilisation and rear ejection for efficient mowing on areas with higher and rougher grass.

COMBI-GUARD The same cutting equipment guard can be used when using trimmer head and grass blade.

COMBINED CHOKE / STOP CONTROL Combined choke / stop control allows for easier starting and reduces the risk of engine flooding.

COMPOSITE CHASSIS Durable and light chassis, designed for best collection performance.

COUNTER-ROTATING TINES Tines rotate anti-clockwise, so the soil is broken up very well. Capable of deep-digging heavy soil.

COUNTERWEIGHT Increases weight on the wheels and improves balance.

CRUISE CONTROL A convenient, efficient function that ensures the tractor keeps an even speed, even if the lawn is undulating or sloping.

CUP HOLDER Convenient cup holder for refreshments during operation.

CUTTING DECK TRANSPORT MODE The cutting deck can be folded back along the tube into a transport mode for easy transport and storage.

CUTTING HEIGHT INDICATOR A well-placed indicator window makes it easy to control the cutting height settings.

D

DEFLECTOR TS tractors have side ejection deflectors as standard. Tractors with integrated collection (TC) can be converted to rear ejection with the deflector accessory (not TC 130)

DETACHABLE SHAFT Detachable shaft for easy transport and storage.

DETACHABLE TRANSMISSION Detachable transmission housing with lubrication nipple.

DOUBLE TRANSPORT WHEELS You can transport the cultivator by tilting it backwards onto the transport wheels.

DOUBLE BALL-BEARING WHEELS Ensure the mower rolls easily and without the wheels becoming loose, even after many years of use.

DOWN-DRAFTED VENTS The collector's down-drafted vents direct noise and dust downwards, away from the user, creating a more comfortable working environment.

DRAG BAR Easy-adjust drag bar, for different working conditions.

DRIVEN WHEELS Powered wheels for easy and comfortable operation.

DUAL DRAGLINKS Give tighter turning radius and improved manoeuvrability.

DUAL-ROTATING TINES The tines rotate either forward or reverse. Use forward-rotating mode for top soil cultivation and counter-rotating mode for deep soil tilling.

DUST BLOCKER COLLECTOR BAG Designed to keep dust into the bag, preventing it from blowing in the operator's face.

E

EASY ADJUSTABLE HANDLE BAR Quick and easy adjustment of the handle in two different heights.

EASY ADJUSTABLE CUTTING HEIGHT A well balanced one hand grip on our lawn mowers makes adjustment of cutting height easy and convenient.

EASY-ADJUST BLADE GUARD The blade guard is adapted quickly and easily during operation.

ELECTRONICS Push button start, indicator lamps for parking brake, battery, headlights, ROS and blade engagement.

ELECTRIC ENGAGEMENT OF CUTTING BLADE/S Easy engagement of cutting blade /s; simply pull the switch on the control panel.

ENGINE BEHIND DRIVER Thanks to the rear-mounted engine, you get better overview of the mowing and less noise and emissions in the driver's area.

ERGONOMIC HANDLES Angled handlebar provide excellent grip to reduce unnecessary strain giving optimum comfort and ergonomic operating control.

ERGONOMIC STEERING WHEEL Ergonomic and comfortable steering wheel.

EXTRA HARDENED REEL BLADE AND BEDKNIFE For excellent cutting performance and maximum durability.

F

FAST TRANSMISSION For extra efficient mowing and fast transport speed.

FENDER-MOUNTED CUTTING HEIGHT ADJUSTMENT Easy accessible cutting height adjustment for improved ergonomics. The spring-assisted cutting deck makes adjustment easier.

FOLDABLE HANDLES Meets the need for easy storage and transporting.

FOUR EQUALLY-SIZED WHEELS Large wheels both front and back provide optimal riding comfort, great accessibility and less risk of damaging delicate surfaces.

FRONT-MOUNTED CUTTING DECK Front-mounted cutting deck for excellent accessibility into corners and under bushes, park benches etc.

FUEL PUMP Fuel pump designed for easy starting by reducing the number of pulls in the starter cord.

FULL COLLECTOR INDICATOR A signal indicates when it is time to empty the collector.

G

GPS COMMUNICATION UNIT GPS theft tracker. SMS alert. Settings changes can be handled from a distance as well as submitting current operating status.

GPS-ASSISTED NAVIGATION An onboard GPS system creates a map of the garden, including where the boundary and guide wires are installed.

H

HANDLEBAR-MOUNTED GEAR SELECTION Ergonomic handle with easy-access controls.

HANDLE HEIGHT ADJUSTMENT Adjustable handle height for improved ergonomics.

HEADLIGHTS Makes the products more visible and allows you to work when it's dark.

HEATED CARBURETTOR A heated carburettor lets the engine start easier and run smoother in cold working environments.

HEATED HANDLES Efficient heating coils in the front and rear handles make operating in cold and damp conditions more manageable.

HIDDEN CABLES The cables are hidden inside the handle tubes, which eliminates the risk of them becoming tangled in hedges or damaged when the handle is folded.

HIGH-CAPACITY BATTERY The high-capacity battery provides performance levels comparable to a petrol driven machine.

HIGH OFFSET POST High offset post increases freedom of movement when working in slopes.

HOOR METER Helps you having control over service and maintenance intervals.

HYDRAULIC EQUIPMENT LIFT Controls front-mounted equipment quick and with high precision. Managed by a easy reachable joy-stick placed on the control panel beside the operators seat.

HYDROSTATIC TRANSMISSION Optimises speed and provides excellent driving comfort. Speed and direction are controlled by separate pedals for forward and reverse.

HYDROSTATIC TRANSMISSION, FAST Hi-speed transmission for superior transport speeds and smooth, variable forward and reverse speeds with the aid of pedals.

I

INTEGRATED LOOP FOR ROPE A sturdy point for fastening a rope, making it easy to hoist the chainsaw up into a tree.

INERTIA-ACTIVATED CHAIN BRAKE If a kickback occurs and the tip of the bar is forced upwards, the inertia of the front guard should activate the chain brake instantly.

INTUITIVE KEY PAD Our battery products is very easy to operate, all information you need in one place.

L

LED HEADLIGHTS Gives over 50 % larger lit area compared to traditional incandescent lights.

LOW NOISE ENGINE Quiet operation provides a comfortable work situation and low disturbance for others.

LOW VIB® Effective anti-vibration dampeners absorb vibration, sparing the user's arms and hands.

M

MY AUTOMOWER® An iPhone application that makes it possible for you to control the robotic lawn mower with your mobile phone.

N

NON-FRICTION SILENT MOWER The lack of friction between the reel blade and bedknife minimises resistance and noise, making the mower very easy to push.

O

OIL COOLER A heat exchanger for cooling the hydraulic system. The cooling system is adequate to keep oil temperatures within safe limits.

OPTIONAL CUTTING DECK To ensure a perfect result, most of our Riders have different cutting decks as options.

ONE-PIECE CUTTING DECK The cutting deck comes in one piece straight out of the stamping line which means it has no welded parts. This gives very high torsional rigidity, tolerance and durability as well as sturdiness in operation.

P

PEDAL-OPERATED CVT TRANSMISSION Speed and direction are managed by pedals, which lets you keep both hands on the steering wheel, for optimum driving control.

PEDAL-OPERATED HYDROSTATIC TRANSMISSION Easy speed and direction control with pedal-operated hydrostatic transmission. Separate pedals for forward and reverse.

PIVOTING FRONT AXLE Ensures good balance and excellent driving comfort.

PIVOTING REAR AXLE The rear axle is pivoting to get maximum traction on the drive wheels and a smooth ride also on uneven surfaces.

PLANT GUARDS Protect plants outside the working area.

POLY-V BELT For better power transmission, less frequent retensioning and increased product life.

POWDER-COATED CUTTING DECK Powder-coated deck for improved durability and corrosion resistance.

POWER STEERING Steering effort is reduced by providing hydraulic pressure to assist when turning the wheels, making manoeuvring easier, more controlled and easier to operate.

PREMIUM SEAT Comfortable Premium seat with high back and armrests. The seat is self-draining and can be tipped to protect it from rain.

GLOSSARY OF TERMS

PRESSURE-LUBRICATED ENGINE An oil pump ensures that all vital parts in the engine get adequate lubrication.

Q

QUICK RELEASE ON AIR FILTER Makes it easy to remove the air filter for cleaning or replacement. No tools required.

QUICK RELEASE ON AIR FILTER COVER Makes it easy to access the air filter and spark plug quickly for cleaning or replacement. A valuable advantage, especially if the saw is used for long periods on a daily basis.

R

RAPIDREPLACE™ BLADE SYSTEM The cutting blades are easily removed and replaced without using any tools. This means safe and quick blade service – and with sharper blades you'll get a healthier lawn.

READYSTART The ReadyStart system eliminates the need to manually prime or choke the engine. It also reduces resistance in the starter cord by 30 %, making the mower very easy to start.

REAR IMPACT GUARD The rear-impact guard protects the pole saw engine from wear and damage.

REAR / SIDE EJECTION These cutting systems have high capacity and are therefore suitable for taller grass, coarser grass types and seldom-cut lawns.

REINFORCED CUTTING DECK The steel tube on the edge of the cutting deck gives improved durability.

REMOTE CONTROLLED CUTTING DECK The remote control makes it easy to adjust the cutting deck angle during operation.

REMOTE TEXT MESSAGING If something unforeseen disturbs operation, this function allows the robotic mower to send a text message to a pre-programmed mobile phone

REMOVABLE BATTERY PACK The battery pack is equipped with a carry handle and is very easy to remove and charge. The battery can also be charged while fitted on the machine.

RETAINED BAR NUTS The bar nuts are attached to the clutch cover. The retaining function prevents losing the bar nuts.

REVBOOST™ Gives rapid acceleration and higher chain speed, for best limbing performance.

REVERSE GEARBOX Improves manoeuvrability and control.

REVERSE SPEED Reverse tine direction for easier operation and better manoeuvrability.

S

SAVE™ Maximises runtime of our battery driven products.

SAFETY SWITCH The tractors are equipped with a safety switch under the seat. If the driver leaves the seat the engine and cutting deck are automatically switched off.

SEPARATE OIL FILTER A separate oil filter is easy to change to ensure that clean oil is circulated inside the engine.

SERVICE POINTS The tilting hood and easy-access servicing points make maintenance and servicing easy.

SERVICE POSITION Without tools you can quickly lift the cutting deck into the maintenance position, for convenient cleaning and service.

SIDE-MOUNTED CHAIN TENSIONER Side-mounted chain tensioner makes chain adjustment quick and easy.

SIDE PROTECTION BUMPER Additional protection when mowing next to wall edges or other obstacles.

SMART START® The engine and starter have been designed so the machine starts quickly with minimum effort and reduced resistance in the starter cord.

SMART START® DECOMPRESSION VALVE The engine and starter have been designed so the machine starts quickly with minimum effort.

SMART START® SPRING ASSISTED START When pulling the starter cord a special spring reduces the resistance in the starter cord.

SMARTSWITCH Offers convenience and security of key-less operation, real time feedback through indicator lamps for parking brake, battery status, headlights, ROS and blade engagement as well as simplified one touch starting and stopping.

SNR Signal To Noise Ratio is a measure that compares the level of a desired signal to the level of background noise.

SNAP-LOCK CYLINDER COVER Saves time when changing spark plugs and cleaning.

SOFT-GRIP HANDLE Reduces vibrations to reduce strain and add comfort for the user.

SOFTSTART™ Electronic SoftStart™ provides starting with normal, slow acting fuses.

STAND ALONE STARTER The stand alone starter makes it easier to change starter cord if needed. Easy to service and maintain.

STARTING REMINDER A decal placed on the top cover reminds you of the correct starting sequence for easy starts.

STEP-THROUGH Ensures comfortable and easy mounting and dismounting.

T

TAP-N-GO® Tap-n-Go® function for quick cord feed. Bump the trimmer head on the ground to feed new cord.

TINE SHIELD Minimises debris spray from the rotating tines.

TOOL-LESS CHAIN TENSIONER Quick and easy chain tensioning and assembling of the bar and the chain without using any tools.

TOUCH-CONTROLS Comfortable operation with easy access touch controls for start, stop and reverse.

TRANSMISSION WITH TRIPLE BALL BEARINGS Fitted with a powerful worm gear transmission with triple ball bearings, for increased durability.

TRANSPARENT FUEL TANK Large, transparent fuel tank makes it easy to check the fuel level.

TRANSPORT WHEEL / S Simplifies transport. Easy to raise during operation.

TRIOBRAKE™ A unique feature that allows the chain brake to be activated either automatically by the inertia release mechanism or mechanically by your left or right hand. This will help you work safer, easier, more efficiently and in a more ergonomic fashion, with less strain on the body.

TURN KEY START Start the engine without adjusting a choke, regardless of the weather conditions – just turn the key.

TWO-WAY ROTATION The trimmer head can rotate to the left or to the right. This means you avoid grass on walkways.

U

U-CUT™ A new steering technology that makes it possible to do tighter turns around obstacles.

ULTRASONIC SENSOR Built-in sensors using ultrasonic technology help the mower to adjust the speed depending on the surroundings, and avoids hard collisions.

V

VARIABLE DRIVE SPEED Enables ground speed to be adjusted according to the needs and the conditions of the grass area where the work is taking place

VISIBLE FUEL LEVEL Makes it easy for the user to see when refill of fuel is needed.

VIBRATION-DAMPENED CARBURETTOR When vibration dampening the carburettor the engine runs smoother and with less need for adjustments.

W

WATER HOSE CONNECTION Simple hose attachment facilitates cleaning of the cutting deck.

WEATHER TIMER Adjusts the working time to the lawn's growth rate, meaning that the robotic mower will maximise or minimise its mowing time due to the weather.

X

XP® Premium professional chainsaws – packed with innovative design and technique for superb productivity.

X-CUT™ Researched and developed in-house. Our new family name of chains especially developed for our chainsaws, offering stay sharp technology, pre-stretched in the factory and increased efficiency.

X-FORCE® Researched and developed in-house. Our new family name of pro-laminated bars, offering more durability and lighter weight.

X-TORQ® Our patented, world-leading, 2-stroke X-Torq® technology gives you more power when you need it. But with less fuel consumption and less emissions, when compared to a standard 2-stroke engine. It's technology that works for you and the environment.

X-TRA EFFICIENCY The Rider X model features a car style engine hood with sound absorbing material for improved sound quality. This low sound technology makes it possible to increase the engine power and thereby also the blade and ground speed, which makes the X model extra efficient.

X-TRAC, HEAVY-TREAD TYRES For extra good traction.

OTHER

12 V OUTLET Makes it possible to plug in extra electric equipment, charge your cellular phone etc.

SUSTAINABLE GREEN SPACES THROUGH INNOVATION

Helping to shape green spaces and urban environments is at the core of our vision. By shifting to technologies that make our products as smart, efficient and optimised as possible – and by investing in sustainable innovations – we can make a real difference and contribute to positive change. Below you'll find some of our efforts within our various product categories.

ROBOTICS WITH A VISION: ZERO IMPACT

Husqvarna Automower® supports the transition from petrol-driven lawn mowers to silent and efficient lawn management in private gardens, commercial properties and public green spaces. Husqvarna Automower® robotic mowers have an extremely low noise level (down to only 58dB) and can replace ride-on and walk-behind mowers in residential areas, parks and green spaces as well as sports facilities, thereby reducing the carbon footprint and noise levels.

CHAINSAW INNOVATIONS TO REDUCE EMISSIONS

Since 1990, we have reduced our chainsaws' fuel consumption by more than 30 %. Our 70cc pro chainsaws have approximately 10 % less CO2 emissions compared to its predecessors thanks to innovations like the X-Torq® engine technology. And over the last 20 years, NOx + HC emissions have decreased by more than 50 % for combustion engines.

BATTERY RANGE TO CUT NOISE AND CARBON

Our wide range of low noise, battery-powered equipment delivers opportunities to use low-carbon energy sources and improves safety. Furthermore they spare the environment from fumes and the products have lower vibration and noise levels. Carbon emissions can be reduced to almost zero during use if the battery is charged with renewable energy.

SOFTWARE THAT CUTS PETROL AND PRODUCT COSTS

We are finding new ways to influence how customers can optimise their product fleet. By gathering data from devices and providing the analytics to crunch that data, digitisation helps customers optimise utilisation, uptime and efficiency. It also gives insights into how to create even better customer solutions and fine-tune our products to each task.

SUSTAINABLE INNOVATIONS FOR TOMORROW

While our target relies primarily on sustainable products in our current product mix, we're already working on future innovations such as the Husqvarna Battery Box – the world's first connected garden community toolshed that combines environmental awareness with a sharing economy. Please note that this product is still in a pilot stage and its future depends on market maturity.

SUSTAINABLE PRINTING

This publication is printed on materials from well-managed forests and other controlled sources. It has been printed using an alcohol-free process, with a water-based varnish and vegetable-based printing inks, which are non-hazardous and are from renewable sources. The printing plates used to produce this brochure were made in a chemical-free process.
